Parting Ways Christianity Psychoanalytic Psychoanalysis:

The Parting of the Ways Richard L. Kradin,2016 This book explores the religious underpinnings of psychoanalysis and examines how the tenets of Judaism and Christianity specifically influenced the theories and practices of Freud and Jung respectively It demonstrates that secular psychoanalysis is in large measure a revision of religious principles contained within the Judeo Christian ethic and questions whether Freud s and Jung s approaches may best be suited to the psychological configurations of their fellow religionists Back cover *Psychoanalysis and Religion in the 21st Century* David M. Black,2012-07-26 What can be gained from a dialogue between psychoanalysis and religion Freud described religion as the universal obsessional neurosis and uncompromisingly rejected it in favour of science Ever since there has been the assumption that psychoanalysts are hostile to religion Yet from the beginning individual analysts have questioned Freud s blanket rejection of religion In this book David Black brings together contributors from a wide range of schools and movements to discuss the issues They bring a fresh perspective to the subject of religion and psychoanalysis answering vital questions such as How do religious stories carry or distort psychological truth How do religions work psychologically What is the nature of religious experience Are there parallels between psychoanalysis and particular religious traditions *Psychoanalysis and Religion in the 21st Century* will be of great interest to psychoanalysts psychoanalytic therapists psychodynamic counsellors and anyone interested in the issues surrounding psychoanalysis religion theology and spirituality
