Pdf Navigating Complexity International Development Facilitating:

The Project in International Development Caitlin Scott, 2023-06-26 The project has become fundamental to international development and humanitarian practice playing a key role in defining objectives funding streams and ultimately determining what success looks like This book provides a much needed overview of the project in international development practice guiding the reader through the latest theoretical debates and exploring the core tools and stages of planning and design The book starts with an overview of the role of the project through development history before taking the reader through the stages of a standard project management cycle Each chapter introduces the stage the most common tools used to support that phase of planning and the critical debates that exist around it with examples to illustrate discussions from around the world and a range of development fields The book explores the challenges to working effectively in contemporary aid contexts including the role of politics and the pressures wrought by the demands to demonstrate quantified results Throughout the book argues for the need to see the project as a form of governmentality that arranges resources and people in time and space and that extends neoliberal forms of managerial control in the sector Ending with suggestions for innovation this book is perfect for anyone looking for an accessible and engaging guide to the international development project whether student researcher or practitioner

Drip Irrigation for Agriculture Jean-Philippe Venot, Marcel Kuper, Margreet Zwarteveen, 2017-07-06 Initially associated with hi tech irrigated agriculture drip irrigation is now being used by a much wider range of farmers in emerging and developing countries This book documents the enthusiasm spread and use of drip irrigation systems by smallholders but also some disappointments and disillusion faced in the global South It explores and explains under which conditions it works for whom and with what effects The book deals with drip irrigation behind the scenes showcasing what largely remain untold stories Most research on drip irrigation use plot level studies to demonstrate the technology s ability to save water or improve efficiencies and use a narrow and rather prescriptive engineering or economic language They tend to be grounded in a firm belief in the technology and focus on the identification of ways to improve or better realize its potential The technology also figures prominently in poverty alleviation or agricultural modernization narratives figuring as a tool to help smallholders become more innovative entrepreneurial and business minded Instead of focusing on its potential this book looks at drip irrigation in use making sense of what it does from the perspectives of the farmers who use it and of the development workers and agencies policymakers private companies local craftsmen engineers extension agents or researchers who engage with it for a diversity of reasons and to realize a multiplicity of objectives While anchored in a sound engineering understanding of the design and operating principles of the technology the book extends the analysis beyond engineering and hydraulics to understand drip irrigation as a sociotechnical phenomenon that not only changes the way water is supplied to crops but also transforms agricultural farming systems and even how society is organized The book provides field evidence from a diversity of interdisciplinary case studies in sub

Saharan Africa the Mediterranean Latin America and South Asia thus revealing some of the untold stories of drip irrigation

Researching Development NGOs Susannah Pickering-Saqqah, 2023-05-23 This book offers a critical insight into how the study of NGOs can be more theoretically grounded and methodologically creative The role of NGOs in global development has been the focus of considerable research and scholarship for the last four decades More recently scholars and NGO practitioners have begun to explore their relationships and how research can better inform practice and vice versa This book addresses questions arising from such research including how different theoretical perspectives can be applied to the study of NGOs what kinds of data can be used when trying to better understand NGOs and what methods can be used in studying NGOs Rather than evaluating the impact of NGO work this is a book about how researchers and practitioners can better understand what NGOs do and how they operate Bringing together work from a range of NGO researchers working across diverse disciplines and at varied stages of their academic careers the collection is supported by recent case studies in the field as well as dilemma boxes and discussion questions in every chapter As such Researching Development NGOs is an essential resource for postgraduate students of Research Methods in Development Studies NGOs and Development Management as well as practitioners wanting to find out more about the sector Action Learning and Action Research

Ortrun Zuber-Skerritt, Lesley Wood, 2019-03-11 Action Learning and Action Research deepens understanding and contributes to new knowledge about the theory practice and processes of Action Learning AL and Action Research It clarifies what constitutes AL AR in its many forms and what it is not **The SAGE Handbook of Participatory Research and Inquiry**

Danny Burns, Jo Howard, Sonia M. Ospina, 2021-08-04 This SAGE Handbook presents contemporary cutting edge approaches to participatory research and inquiry It has been designed for the community of researchers professionals and activists engaged in interventions and action for social transformation and for readers interested in understanding the state of the art in this domain The Handbook offers an overview of different influences on participatory research explores in detail how to address critical issues and design effective participatory research processes and provides detailed accounts of how to use a wide range of participatory research methods Chapters cover pioneering new participatory research techniques including methods that can be operationalised at scale approaches to engaging the poorest and most marginalised and ways of harnessing technologies to increase the scope of participation amongst others Drawing upon a wide range of disciplines and bringing together contributing authors from across the globe this Handbook will be of interest to an international readership from across the broad spectrum of social sciences including social policy development studies geography sociology criminology political science health and social care education psychology business management It will also be an insightful and practical resource for facilitators community workers and activists for social change Part 1 Introduction Part 2 Key Influences and Foundations of Participatory Research Part 3 Critical Issues in the Practice of Participatory Research Part 4 Methods and Tools Part 4 1 Dialogic and Deliberative Processes Part 4 2 Digital Technologies in Participatory Research Part

4 3 Participatory Forms of Action Orientated Research Part 4 4 Visual and Performative Methods Part 4 5 Participatory Monitoring Evaluation and Learning Part 4 6 Mixing and Mashing Participatory and Formal Research Part 5 Final Reflections
