Online Science Learning: Best Practices and Technologies Downing, Kevin, Holtz, Jennifer, 2008-05-31 The continued growth in general studies and liberal arts and science programs online has led to a rise in the number of students whose science learning experiences are web based. However, little is known about what is actually going on in web based science courses at the level of the disciplines within liberal arts and sciences or the corresponding course design features. Online Science Learning: Best Practices and Technologies reviews trends and efforts in web based science instruction and evaluates contemporary philosophies and pedagogies of online science instruction. This title on an emergent and vital area of education clearly demonstrates how to enrich the academic character and quality of web based science instruction.

International Program and Project Management — Best Practices in Selected Industries Kenneth David Strang, Narasimha Rao Vajjhala, 2025-03-06 This book examines the latest best practices in international program and project management, offering invaluable insights across various industries. Edited by renowned experts, this book brings together a diverse range of case studies and research from leading scholars and practitioners worldwide. From a detailed macro environmental analysis of contemporary project management to exploring the complexities of AI project management, each chapter highlights critical strategies, tools, and methodologies needed to tackle today's evolving challenges in program and project management. Topics such as ISO standards, ISO 21502 project management body of knowledge (PMBOK), risk management in high complexity environments, stakeholder management, and agile business intelligence projects are discussed through practical case studies from industries ranging from fintech and biopharmaceuticals to public administration. This book is an essential resource for project managers, researchers, and industry professionals seeking to enhance their understanding of global project management dynamics and apply cutting edge approaches across sectors.
