Models Of My Life:

Models of My Life Herbert A. Simon, 1996-10-08 In this candid and witty autobiography Nobel laureate Herbert A. Simon looks at his distinguished and varied career continually asking himself whether and how what he learned as a scientist helps to explain other aspects of his life A brilliant polymath in an age of increasing specialization Simon is one of those rare scholars whose work defines fields of inquiry Crossing disciplinary lines in half a dozen fields Simon's story encompasses an explosion in the information sciences the transformation of psychology by the information processing paradigm and the use of computer simulation for modeling the behavior of highly complex systems Simon's theory of bounded rationality led to a Nobel Prize in economics and his work on building machines that think based on the notion that human intelligence is the rule governed manipulation of symbols laid conceptual foundations for the new cognitive science Subsequently contrasting metaphors of the maze Simon's view and of the mind neural nets have dominated the artificial intelligence debate There is also a warm account of his successful marriage and of an unconsummated love affair letters to his children columns a short story and political and personal intrigue in academe *Models of My Life*, 1991 **Herbert A. Simon** Hunter Crowther-Heyck, 2005-04-27 In this informed and discerning study Crowther Heyck explores Simon's contributions to science and their influences on modern life and thought For historians of science social science technology and twentieth century American intellectual and cultural history this account of Herbert Simon's life and work provides a rich and valuable perspective Rarely does the world see as versatile a figure as Herbert Simon He was a Nobel laureate in economics an accomplished political scientist winner of a lifetime achievement award from the American Psychological Association and founder of the department of computer science at Carnegie Mellon University In all his work in all these fields he pursued a single goal to create a science that could map the bounds of human reason and so enlarge its role in human affairs Hunter Crowther Heyck uses the career of this unique individual to examine the evolution of the social sciences after World War II particularly Simon's creation of a new field systems science which joined together two distinct powerful approaches to human behavior the sciences of choice and control Simon sought to develop methods by which human behavior specifically human problem solving could be modeled and simulated Regarding mind and machine as synonymous Simon applied his models of human behavior to many other areas from public administration and business management to artificial intelligence and the design of complex social and technical systems In this informed and discerning study Crowther Heyck explores Simon's contributions to science and their influences on modern life and thought *Models of Achievement* Agnes N. O'Connell, 2013-01-11 This outstanding book contains inspiring stories of late 20th century women who broke new ground in psychological knowledge and its applications The lives and careers of 53 women are examined within social and historical contexts using three levels of analysis the individual the group and the universal The thoughtful autobiographies and the perceptive integrative analyses increase understanding of the personal and professional development of these women

provide insights into their patterns of achievement and illuminate new ways of thinking about and perceiving women This extraordinary book is a valuable resource for libraries and researchers provides knowledge and inspiration for a wide range of readers and is an excellent supplementary text for courses in the psychology of women history of psychology lifespan development career development and women s studies **Models of Love** Barry Vissell, Joyce Vissell, 1986 *My Life's Romance, Or, Recollections of Seventy Years' Experiences in Various Parts of the World* Mrs. John Farrar, 1888
