Models Of My Life Herbert Simon:

Models of My Life Herbert A. Simon, 1996-10-08 In this candid and witty autobiography Nobel laureate Herbert A. Simon looks at his distinguished and varied career continually asking himself whether and how what he learned as a scientist helps to explain other aspects of his life A brilliant polymath in an age of increasing specialization Simon is one of those rare scholars whose work defines fields of inquiry Crossing disciplinary lines in half a dozen fields Simon's story encompasses an explosion in the information sciences the transformation of psychology by the information processing paradigm and the use of computer simulation for modeling the behavior of highly complex systems Simon's theory of bounded rationality led to a Nobel Prize in economics and his work on building machines that think based on the notion that human intelligence is the rule governed manipulation of symbols laid conceptual foundations for the new cognitive science Subsequently contrasting metaphors of the maze Simon's view and of the mind neural nets have dominated the artificial intelligence debate There is also a warm account of his successful marriage and of an unconsummated love affair letters to his children columns a short story and political and personal intrigue in academe Models of My Life ,1991 Models of a Man Mie Augier, James G. March, 2004-03-26 Essays that pay tribute to the wide ranging influence of the late Herbert Simon by friends and colleagues Herbert Simon 1916 2001 in the course of a long and distinguished career in the social and behavioral sciences made lasting contributions to many disciplines including economics psychology computer science and artificial intelligence In 1978 he was awarded the Nobel Prize in economics for his research into the decision making process within economic organizations His well known book *The Sciences of the Artificial* addresses the implications of the decision making and problem solving processes for the social sciences This book the title is a variation on the title of Simon's autobiography *Models of My Life* is a collection of short essays all original by colleagues from many fields who felt Simon's influence and mourn his loss Mixing reminiscence and analysis the book represents a small acknowledgment of a large debt Each of the more than forty contributors was asked to write about the one work by Simon that he or she had found most influential The editors then grouped the essays into four sections Modeling Man Organizations and Administration Modeling Systems and Minds and Machines The contributors include such prominent figures as Kenneth Arrow William Baumol William Cooper Gerd Gigerenzer Daniel Kahneman David Klahr Franco Modigliani Paul Samuelson and Vernon Smith Although they consider topics as disparate as Is Bounded Rationality Unboundedly Rational and Personal Recollections from 15 Years of Monthly Meetings each essay is a testament to the legacy of Herbert Simon to see the unity rather than the divergences among disciplines **Models of a Man** Mie Augier, James G. Critical Fabulations Daniela K Rosner,2018-07-17 A proposal to redefine design in a way that not only challenges the field s dominant paradigms but also changes the practice of design itself In *Critical Fabulations* Daniela Rosner proposes redefining design as investigative and activist personal and culturally situated responsive and responsible Challenging the field s dominant paradigms and reinterpreting its history Rosner wants to change the way we historicize the practice reworking it from the inside Focusing on the development of computational systems she takes on powerful narratives of innovation and technology shaped by the professional expertise that has become integral to the field s mounting status within the new industrial economy To do so she intervenes in legacies of design expanding what is considered design to include long silenced narratives of practice and enhancing existing design methodologies based on these rediscovered inheritances Drawing on discourses of feminist technoscience she examines craftwork s contributions to computing innovation how craftwork becomes hardware manufacturing and how hardware manufacturing becomes craftwork She reclaims for example NASA s Little Old Ladies the women who built information storage for the Apollo missions by weaving wires through magnetized metal rings Mixing history theory personal experience and case studies Rosner reweaves fibers of technoscience by slowly reworking the methods and margins of design She suggests critical fabulations as ways of telling stories that awaken alternative histories and offers a set of techniques and orientations for fabulating its future *Critical Fabulations* shows how design s hidden inheritances open different possibilities for practice

The Invention of Design Maggie Gram,2025-06-03 From a brilliant cultural historian a secret history of the twentieth century Louis Menand told through the story of design and its utopian promises Design has penetrated every dimension of contemporary society from classrooms to statehouses to corporate boardrooms It s seen as a kind of mega power one that can solve all our problems and elevate our experiences to make a more beautiful more functional world But there s a backstory here In *The Invention of Design* designer and historian Maggie Gram investigates how over the twentieth century

our economic hopes fears and fantasies shaped the idea of design then repeatedly redefined it Nearly a century ago resistance to New Deal era government intervention helped transform design from an idea about aesthetics into one about function And at century s end the dot com crash brought us design thinking the idea that design methodology can solve any problem small or large To this day design captures imaginations as a tool for fixing market society s broken parts from within supposedly enabling us to thrive within capitalism s sometimes violent constraints A captivating critical history The Invention of Design shows how design became the hero of many of our most hopeful stories dreams fantasies utopias about how we might better live in a modern world
