*Philosophical Enquiries and Pretentious Postulations* Charlotte Hathaway,2007-10-25 Can you ever be in the wrong place at the right time If 299 792 458 m s is the speed of light what is the speed of dark Do you get lost in thought because it is such unfamiliar territory How much deeper would the ocean be without sponges What happens if you get scared half to death twice The world is full of philosophy everywhere you look people are trying to unravel the deep meaning of life even if they don t realize it Yet although nearly everyone does it there is a great image of pretentiousness surrounding the sport as if philosophy is something that is extremely difficult to do It isn t as this book shows Even if you think you know nothing about philosophy was it not Socrates who advocated that the only true wisdom is in knowing that you know nothing Remember if you can argue it it s philosophy *Architecture for Rapid Change and Scarce Resources* Sumita Singha,2013-07-03

Architects development practitioners and designers are working in a global environment and issues such as environmental and cultural sustainability matter more than ever Past interactions and interventions between developed and developing countries have often been unequal and inappropriate We now need to embrace fresh design practices based on respect for diversity and equality participation and empowerment This book explores what it means for development activists to practise architecture on a global scale and provides a blueprint for developing architectural practices based on reciprocal working methods The content is based on real situations through extended field research and contacts with architecture schools and architects as well as participating NGOs It demonstrates that the ability to produce appropriate and sustainable design is increasingly relevant whether in the field of disaster relief longer term development or wider urban contexts both in rich countries and poor countries **Proceedings of the 2004 ACM Symposium on Document Engineering** Ethan V.

Lute News ,2003     Climate change and the Stern Review Great Britain: Parliament: House of Commons: Treasury Committee,2008-02-05 Climate change is one of the biggest challenges facing the world today and requires an urgent response from Government industry and the individual This inquiry was triggered by the publication of the Stern Review on The Economics of Climate Change 2006 ISBN 9780102944204 which stressed the need to stabilise carbon emissions sooner rather than later and warned of potentially catastrophic impacts if that was not achieved The Review framed the climate change debate in terms of economic choices and considered the use of economic tools such as environmental taxation and permit trading schemes as economically efficient mechanisms for cutting emissions This Report recommends that the Government give primary consideration to the use of economic tools in combating climate change The Treasury s policies and action in this regard were the main focus of the inquiry The report looks at work on this topic by the Treasury and other select committees It then assesses the economics of the Stern Review and examines the Government s approach to reducing emissions Further sections cover emissions trading schemes environmental taxes and adaptation designed to counter the negative impacts caused by time lags in global and local ecosystems The Committee calls for a twin track approach involving both adaptation and mitigation
