How much energy could I save with a smart home? What's the future of wearable tech? When will I have a self-driving car? When will I have a nearly self-driving car? Hint: Surprisingly soon. Is IoT already changing the way I shop? What's the future of drones at war and in my neighborhood? Could smart cities lower my taxes? Who gets the data my devices are collecting? How can I profit from the Internet of Things? What happens when the whole world is connected? Will I have any privacy left at all?
