**The Lowering of Higher Education in America** Jackson Toby, 2017-07-05 Few in the United States will dispute the assumption that every high school graduate should be entitled to go to college regardless of financial need But should everyone be able to go regardless of academic preparedness Jackson Toby explores the idea that federal financial aid programs all of which peg student aid to need alone and not to academic performance are dragging down college admissions and academic standards to the point where America's schools students and economy will no longer be globally competitive After a half century of teaching distinguished educator Jackson Toby concludes that our current system all too often gives both high school and college students the impression that college is an entitlement and not a challenge **The Lowering of Higher Education Why Student Loans Should Be Based on Credit Worthiness** is Toby's unflinching look at this broken system and the ways it can be fixed This volume documents just how far college admission standards have fallen and measures the cost of remedial programs designed to get underprepared high school students to the level they should have been at in the first place Toby is both pointed and frank in his discussion on the issue of grade inflation which rewards laziness while demoralizing hard working students To reverse the national decline of academic standards in American colleges Toby proposes a radical solution Let federal student aid be tied to academic performance as well as financial need incentivizing students to develop serious attitudes and study habits in high school and keep them up in college *America's Best Colleges*, 2006 *U.S. News & World Report*, 2009 **Annual Report - Colorado Agricultural Experiment Station, Colorado State University** Colorado Agricultural Experiment Station, 1895 **Rankings and the Reshaping of Higher Education** Ellen Hazelkorn, 2015-03-23 University rankings have gained popularity around the world and are now a significant factor shaping reputation This second edition updates Ellen Hazelkorn's first comprehensive study of rankings from a global perspective drawing in new original research and extensive analysis It is essential reading for policymakers managers and scholars *Scientific American*, 1896 *The Top American Research Universities*, 2013 **Resources in Education**, 1989-04 *Annual Report of the Board of Health of the State of New Jersey*, 1874 **Annual Report**, 1877 **Annual report of the Department of Health of the State of New Jersey. 1877-81**, 1877 **Annual Report** Ontario.
