The accepted papers cover a wide spectrum of traditional networking topics ranging from routing to the application layer to localization in various networking environments such as wireless sensor and ad hoc networks and give insights in a variety of application areas.

Personal Mobilities Aharon Kellerman, 2006-11-22 Personal Mobilities provides a systematic study of personal movement focusing on the dimensions of space individuals societies and technologies. Kellerman examines a variety of personal mobilities including air transportation through several perspectives examining the human need for movement their anchoring within wider societal trends commonalities and differences among mobility technologies and international differences. Although spatial mobility seems geographical by its very nature the topic has been so far treated only partially and mainly by sociologists. Personal Mobilities highlights geographical as well as sociological aspects and is the first book to focus solely on personal mobilities.
