Max Streaming 2025

Gabriel Campisi

Max Streaming 2025:

From Telenovelas to Netflix: Transnational, Transverse Television in Latin America Joseph Straubhaar, Melissa Santillana, Vanessa de Macedo Higgins Joyce, Luiz Guilherme Duarte, 2021-12-06 This book is about television in Latin America. Its national and regional industries create most television programming there within genres developed over time in the region. However, part of the programming has always come from the US, Europe, and elsewhere. With cable, satellite, and now streaming TV, the inflow of foreign programming has increased substantially. While many in the audience still prefer national or regional programs for their cultural proximity, an increasing number among the upper middle and middle classes, particularly the young, are turning to the new foreign services like Netflix, Amazon, and Disney for class distinction, cosmopolitanism, or other motives. Among the television industries, global, regional, and national actors are creating a variety of programs and channels, broadcast, pay TV, and streaming, to segment and appeal to different parts of the audience.

Selling Rights Lynette Owen, 2024-07-08 Now in its ninth edition, *Selling Rights* has firmly established itself as the leading guide to all aspects of rights sales and co-publications throughout the world. Covering the full range of potential rights from English language territorial rights through to serial rights, permissions rights for the reading impaired, translation rights, dramatization and documentary rights, electronic and multimedia rights, this book constitutes a comprehensive introduction and companion to the topic. Besides individual types of rights, topics covered also include book fairs, Open Access, the ongoing impact of new electronic hardware, and the rights implications of acquisitions, mergers, and disposals. This fully updated edition includes New IP legislation and proposed legislation in the UK and the USA, including changes regarding TDM and the post Brexit implications of EU directives, and exhaustion of rights. The implications of artificial intelligence AI for author contracts and licensing contracts, The impact of the pandemic and its aftermath on the promotion and sale of rights, Coverage of censorship in countries around the world, especially in relation to LGBTQI content, as well as political situations which have impacted on rights trading. The impact of streaming services on opportunities for licensing television and film rights. Major revisions to the chapters on audio and video recording rights, the internet and publishing, and electronic publishing and digital licensing. *Selling Rights* is an essential reference tool and an accessible and illuminating guide to current and future issues for rights professionals and students of publishing.

The Independent Filmmaker's Guide to the New Hollywood Gabriel Campisi, 2020-09-28 Netflix and its competitors like Disney, Amazon Prime, and Hulu have brought unprecedented levels of entertainment to consumers everywhere, providing the richest, most abundant aggregate of motion pictures and cinematic television the world has ever seen. Behind the facade, however, things are not as pleasant. A very costly paradigm shift is underway, altering not only conventional business and finance models but also threatening long-established avenues of entertainment such as movie theaters, traditional television, and home video, and wreaking havoc on independent filmmakers and veteran producers alike. This book attempts to make sense of ongoing economic and creative shifts of

infrastructure and intellectual property to understand where the industry is headed and to distinguish which business models should be maintained and which ones should be left behind. Featuring exclusive interviews with some of the industry's most prolific filmmakers and executives, it dives into the trenches of Hollywood to provide readers with the knowledge necessary to rethink the business, see past the turmoil, recognize the new opportunities, and take advantage of exciting new possibilities. Change sparks innovation and innovation brings about great opportunity, but only for the well informed and prepared.

The Global Film Market Transformation in the Post-Pandemic Era Qiao Li, David Wilson, Yanqiu Guan, 2023-05-04

This book reviews the development and performance of the global film industry during the COVID 19 pandemic and examines new trends in film production, distribution, and consumption through a global lens. The COVID 19 pandemic has had a substantial impact on the global film industry since the beginning of 2020. There has been significant transformation in terms of film production, distribution, and consumption. Hollywood, like many national cinemas across the globe, has suffered the most significant impact at all levels: the interruption of new film productions, shutdowns of movie theatres in many countries, and delays in the release of new films among them. Many movies made for cinemas were forced to move from release in theatres to various streaming platforms and nontraditional production companies continued to grow their market share. This book places the global film industry in a post Pandemic context. It provides detailed analyses of specific systems of film production, distribution, and consumption in national cinemas as well as in Hollywood, while also engaging with the key theoretical and methodological questions from the film studies literature. This volume is a critical reference for students and scholars of film studies and general readers who are interested in the new trends and transformation of the global film industry in a post pandemic era. Netflix and Streaming Video Amanda D. Lotz, 2022-07-22

Netflix and Streaming Video is the first book to provide a comprehensive foundation for understanding the business of subscriber funded streaming video and its implications for the role of these services in culture. Drawing on Lotz's two decades of research, it highlights the similarities and differences among streaming video services, Netflix, Amazon, and video distribution technologies, broadcast, satellite, internet. Making a number of provocative and thought provoking arguments, the book first reveals how the reliance on subscriber payment and video on demand produces different norms and strategies compared to previous video businesses. It then investigates Netflix and how its particular blend of characteristics distinguishes it from other subscriber funded video on demand services. The author expertly shows that by understanding the underlying economic and technological dynamics of these services and their differences, it is possible to better assess the actions taken by the companies and what the future of video may encompass. The book is a must read for students and scholars of Media and Communications Studies, as well as those wishing to learn more about Netflix and streaming video services.

Media Today Joseph Turow, 2026-03-24

This ninth edition of Joseph

Turow's pathbreaking media textbook uses convergence as a lens that puts students at the center of the profound changes in the 21st century media world. It teaches students to think critically about the role of media and what these changes mean for their lives. The book's media systems approach helps students to look carefully at how media content is created, distributed and exhibited in the new world that the digital revolution has created. From news media to video games and social networking to mobile platforms and streaming, it provides students with the tools they need to understand and critique the media they encounter and consume. The first part examines the media world as a whole while the second delves deep into key media industries such as the movie, television and video streaming and video game industries. This new edition includes critical expanded coverage of social media economies, cross border media issues, the rise of news influencers and subscription platforms and the growing use of predictive and generative artificial intelligence as well as brand new case studies and updated figures, tables and pedagogy including key terms and further activities. *Media Today* is an excellent introduction to the world of media in the digital age, perfect for students seeking a solid grounding in media studies. Extensive pedagogical materials also make this a highly teachable book well suited to the classroom. The accompanying website has also been updated with new student and instructor resources including chapter recaps, recommended readings and instructor's manual.
