Gopher Music Notes, 2002 **Countercultures and Popular Music** Sheila Whiteley, Jedediah Sklower, 2016-05-13 Counterculture emerged as a term in the late 1960s and has been re-deployed in more recent decades in relation to other forms of cultural and socio-political phenomena. This volume provides an essential new academic scrutiny of the concept of counterculture and a critical examination of the period and its heritage. Recent developments in sociological theory complicate and problematise theories developed in the 1960s with digital technology for example, providing an impetus for new understandings of counterculture. Music played a significant part in the way that the counterculture authored space in relation to articulations of community by providing a shared sense of collective identity. Not least the heady mixture of genres provided a socio-cultural political backdrop for distinctive musical practices and innovations which in relation to counterculture ideology provided a rich experiential setting in which different groups defined their relationship both to the local and international dimensions of the movement so providing a sense of locality, community and collective identity.

Memes, Monsters, and the Digital Grotesque Cristina Moreno-Almeida, 2024-05-16 Memes Monsters and the Digital Grotesque looks at the emerging and thriving new genre of digital horror from an innovative perspective. Examining digital cultural production during the period that has been referred to as the Arab Winter, Moreno Almeida delves into the memes, animated cartoons, music videos, and expressive cultures like fashion and urban subcultures that emerged between 2016 and 2020. In revealing concealed narratives underlying the digital lives of artists as well as ordinary people, Moreno Almeida explores how memes, horror, and the grotesque capture a moment infused with political and affective significance characterized by despair, alienation, and anomie alongside opportunities for creative experimentation made possible in the postdigital era.
