## Snapchat This Month

**Terry C. Jones**

## **Snapchat This Month:**

*Does SNAP Decrease Food Insecurity?* Mark Nord, 2009 Self selection by more food needy households into the Supplemental Nutrition Assistance Program SNAP formerly called the Food Stamp Program makes it difficult to observe positive effects of the program in survey data. This study investigates self selection and ameliorative program effects by examining households food security month by month for several months prior to initial receipt of SNAP benefits and for several months after joining the program. Food security is observed to deteriorate in the 6 months prior to beginning to receive SNAP benefits and to improve shortly after. The results clearly demonstrate the self selection by households into SNAP at a time when they are more severely food insecure. Charts and tables. *About to Snap* T.C. Junior, 2015-06-02 T C Junior is a current case worker for Welfare recipients. He represents no agency state or federal and only gives his own accounts to his experiences. He has a very extensive work history with the most costly state and federal programs Criminal Justice and Welfare Services as well as other jobs in the private sector as a part of the process of developing his transferrable skill. T C Juniors career in Human Services have expanded in 2 different divisions Long Term Care Programs with the Elderly and Disabled and with Health and Human Service conducting eligibility determination and case management for SNAP TANF Medicaid and CHIP. T C Junior also was chosen by supervisors to be a part of the ACA application processing group which handled the Medicaid testing portion of ACA applicants before being sent to the Market Place for insurance. T C Junior is a Psychology Major and during the course of the book was able to apply concepts of his education along with work experience to understand the Welfare system and does his best to expose Americans to this sub culture in America.
