group portraits of their academic careers working with metaphors which challenge the dominant discourses of how academic careers should be led From rejecting the pressure to focus on one big thing to prioritising nurture and care transcending disciplinary boundaries reshaping own daily practice connecting with communities and being academics outside academia the chapters in this book offer those considering starting or developing an academic career a treasure trove of many alternative possibilities Presented as a portrait gallery through which readers are encouraged to meander at will this compilation of insights into alternative academic lives will help to inspire and encourage current academics to re think and take ownership of their careers in their own terms according to their own strengths weaknesses and circumstances
