the Pyrenees to thank for saving Cadaques since to reach it one must ascend and wind around the lower reaches of these mountains for 45 minutes on good roads before making the descent toward this Salvador Dalí's favored retreat. Developers tend to favor easier roads. Higher up in the Catalan Pyrenees where the peaks top out at over 3 000 m (9 840 feet) and waterfalls cascade down their faces there is more to be thankful for. A series of Romanesque churches, the product of Catalonia's medieval golden age when its counts allied with neighboring Aragon to create a seafaring kingdom unrivaled in the Mediterranean at the time, are hidden in far-flung valleys set along crystalline streams away from the package tourists and even paved roads. With snowfall the Catalan Pyrenees offer great cross-country and downhill skiing and when it melts great whitewater adventures. Throughout the year one can marvel at the secluded wilderness of the Aiguestortes National Park and wonder why they ever spent so much time in Barcelona. Barcelona is the stylistic capital of Spain, endowed with bold modernist architecture, traditionally the seat of challenging art movements and by and large a truly modern European city. To the west the modest mountains surrounding the city, the champagne vineyards and beyond them the wild massif of holy Montserrat give way to the eastern realm of the barren plateau known as the Meseta. Catalonia's driest and most desolate expanse. As the region narrows out toward the south near its border with Valencia, the delta of the Río Ebro, Spain's longest river, fosters wetlands that attract clouds of migratory birds. Here, as throughout the coastal regions of Catalonia, the climate is strictly Mediterranean with generally mild winters and brutally humid and hot summers, a stark contrast to the dry air and snowy peaks of the Pyrenees. In its diverse landscapes Catalonia certainly looks like Spain even if it doesn't act like Spain. But by its own measure Catalonia adds an element of sophistication and openness that serves to complement the rest of the country. Without it Spain would have its wine but no champagne. Barcelona is a city that immediately calls to mind great art and architecture; here one can find the same music, nightlife, and walks as in a great many other places, as well as a great deal of misunderstanding. As a Catalan friend pointed out, "We are a complex people living in a thousand places at once." Such a maelstrom of commerce, culture, and idealism is not easily correlated, often leaving visitors with the feeling that while they may have seen a Gaudí facade they were never invited inside to see what was holding it up. Here is the most detailed guide to Barcelona. And the Catalonia region that surrounds it, loaded with maps, photos, and complete information on where to stay, where to dine, and what to see and do. Also included is an extensive general section on Spain as a whole.
