Wink **Mixed-Media Nature Journals** L. K. Ludwig, 2008 A step by step technique book for creating beautiful imagery and journals inspired by the natural world. Nature has been inspiring artists of all ages since the dawn of history; however, most books on nature journaling focus exclusively on drawing and watercolor painting and therefore are intimidating or irrelevant to artists who don't feel confident in their drawing or painting skills. This book offers artists and crafters a wide range of experimental techniques for creating beautiful nature journals that primarily use imagery and themes from the natural world but go way beyond mere drawing and painting. Creative twists on leaf rubbings, plant pressings, non-traditional printmaking using patina solutions on brass or copper mesh, colorful photo manipulations, layering techniques, and clever ways of incorporating three-dimensional natural objects are just a few of the techniques that are explored. Inspirational writings, thematic sidebars, and related conceptual exercises all help readers create artwork that will resonate on a deeper personal level.

Are you harnessing the power of a journal? If you are going through life right now feeling like everything is out of control or that things are not happening the way you planned, you need a journal. I don't mean to be too direct, but it is time for you to discover why you feel the way you do and then figure out what to do about it. Or you can just write stuff in it. The great thing about a lined journal is you can make it into anything you want. A day timer, travel journal, diary, notebook for school, etc. If you need to write something down, a journal is the tool you need. If you want to use it for more than just a notepad, then keep reading.

Benefits Of Keeping A Journal

Almost every successful person seems to have kept a journal in one form or another. Success in this case is not defined by money but overall happiness. Whether or not they called it journaling, doesn't matter as they kept a record of their goals, success, failures, feelings, and their daily life. Your journal contains the answers to your most burning questions. It is literally the best self-help book you could ever read because it is all about you. Just some of the benefits of journaling are:

- Allows you to reflect on your life and the changes you are choosing to make or not make.
- Clarifies your thinking and, as Tony Robbins says, Clarity is Power.
- Houses all your million-dollar ideas that normally get lost in all the noise of life.
- Expose repeated patterns of behaviors that get you the results you DON'T want.
- Acts as a bucket for you to brain dump in a cluttered mind.
- Leads to a disorganized life.
- Revisits daily situations giving you a chance to look at it with a different perspective.
- Doesn't crash and lose everything you put into it, like electronics.
- Just like electronics, though, don't get it wet.
- You may want to keep multiple journals. One that contains your truest and most secret feelings that you guard heavily but need a way to express. Another that contains all those fantastic ideas, dreams, and awesome goals.
- Maybe just
