My Descent Into Death A Second Chance At Life:

My Descent Into Death Howard Storm, 2005-02-15 Not since Betty Eadie's *Embraced by the Light* has a personal account of a Near Death Experience (NDE) been so utterly different from most others or nearly as compelling. This is a book you devour from cover to cover and pass on to others. This is a book you will quote in your daily conversation. Storm was meant to write it and we were meant to read it from the foreword by Anne Rice. In the thirty years since Raymond Moody's *Life After Life* appeared, a familiar pattern of NDEs has emerged: suddenly floating over one's own body usually in a hospital setting, then a sudden hurtling through a tunnel of light toward a presence of love. Not so in Howard Storm's case. Storm, an avowed atheist, was awaiting emergency surgery when he realized that he was at death's door. Storm found himself out of his own body looking down on the hospital room scene below. Next, rather than going toward the light, he found himself being torturously dragged to excruciating realms of darkness and death where he was physically assaulted by monstrous beings of evil. His description of his pure terror and torture is unnerving in its utter originality and convincing detail. Finally drawn away from death and transported to the realm of heaven, Storm met angelic beings as well as the God of Creation. In this fascinating account, Storm tells of his life review, his conversation with God, even answers to age-old questions such as why the Holocaust was allowed to take place. Storm was sent back to his body with a new knowledge of the purpose of life here on earth. This book is his message of hope.

My Descent into Death Howard Storm, 2012-07-09 For years Howard Storm lived the American dream. He had a fine home, a family, and a successful career as an Art Professor and painter. Then, without warning, he found himself in hospital in excruciating pain, awaiting an emergency operation. He realised with horror that his death was a real possibility, but as an atheist he was convinced that his demise would mark the end of consciousness. Storm was totally unprepared for what was to happen next. He found himself out of his body, staring at his own physical form. But this was no hallucination; he was fully aware and felt more alive than ever before. In his spirit form, Storm was drawn into fearsome realms of darkness and death where he experienced the terrible consequences of a life of selfishness and materialism. However, his journey also took him into regions of light where he conversed with angelic beings and the Lord of Light Himself, who sent him back to live on earth with a message of love. *My Descent into Death* is Howard Storm's full story from his near-death experience in Paris to his full recovery back home in the States and the subsequent transformation of his life. Storm also communicates what he learned in his conversations with heavenly spiritual beings, revealing how the world will be in the future, the real meaning of life, what happens when we die, the role of angels, and much more. What he has to say will challenge those who believe that human awareness ends with death.

["Almost There" Walking through the Valley](#) Jack Weitzel, 2018-06-25 Just a few moments before his death, my father looked straight ahead and with a calm voice said to me, "Almost there." It has been 20 years since his homeward journey, and I have been haunted by those words. What was he seeing that we couldn't see? In my career as a surgeon and a witness for Christ, I have observed many deaths when the last moments

were calm and unafraid Four years as a hospice volunteer brought me even more intimate with those last moments I think that the valley David wrote of could also represent moments of extreme circumstances in our lives when we are in the Shadow of death an automobile accident with severe injuries the sudden loss of a child or spouse the loss of a career a consuming fire a devastating flood the birth of a stillborn Do you have the Good Shepherd to guide you through these times We only have this moment this breath Tomorrow is not promised to anyone Do you have the peace of God that surpasses all understanding Are you ready to walk through the valleys of your life Come with me as I walk through the valley of the hospice and witness the grace and comfort that only God can provide for us Journey with me and meet my Lord There will be stops along the way as we see how the world deals with the valley I pray that this book might be a life changing experience for you as we journey to Almost there Spirituality Beyond Science and Religion William Pillow, Jack McMahan, 2012-05 Spirituality means something different to everyone Some may believe it involves participating in organized religion Others may prefer it to be more personal like getting in touch with one's inner self through yoga meditation quiet reflection or even long walks A few may find that it lies in finding a new sense of purpose for their lives Spirituality Beyond Science and Religion addresses all of these and more through a new paradigm about life and death It lifts readers above their daily press for competitive survival and success by going to the heart of all spirituality The book disputes traditional science's claim that physical matter is the only reality It also helps explain enigmas that have confronted orthodox religion for centuries To do so this book correlates published research from nearly one hundred and fifty authors and professionals in medicine neuroscience psychology theology history and metaphysics It explores new insights being revealed through thousands of subjective experiences around the world all of them beyond the ability of science or religion to explain The book therefore not only offers reassurance that death is not final but it also discloses profound implications for how we live our lives on earth

My Descent Into Death Howard Storm, 2008 A Howard Storm's full story from his near death experience in Paris to his full recovery back home in the States and the subsequent transformation of his life It also communicates what he learned in his conversations with heavenly spiritual beings revealing how the world will be in the future what happens when we die and the role of angels Spiritual Science Eric Dubay, 2012-07-12 For centuries the prevailing western worldview has been built upon the materialistic mechanical model of Isaac Newton a clockwork Universe composed of separate particles of matter interacting according to precise physical laws and existing within objective dimensions of space and time This model has long succeeded in describing many facets of our multi faceted reality but increasingly since the revelations of Einstein and the paradigm crushing implications of quantum physics Newton's world is quietly fading from view and being replaced by a more spiritual science Topics covered include Quantum Physics Consciousness The Holographic Universe Morphic Fields The Human Energy Body Psychoneuroimmunology Chi Chakras Meridians Acupuncture Auras Telepathy Psychokinesis Remote Viewing Precognition Out of Body Experiences Near Death Experiences Entheogens Death Ghosts Reincarnation God Tao

neuroscientist and surgeon makes an argument for the existence of a spiritual human soul in this eye opening book Many scientists and doctors believe that there is no such thing as the soul That there is no part of us that persists beyond death We are not spiritual in any respect We are made up of cells and tissue and completely controlled by a material organ in our heads the brain In this groundbreaking book Dr Michael Egnor makes the case based on 40 years of practice and over 7 000 brain surgeries that science has gotten it all wrong The human brain is incredible mysterious and powerful But it s not what makes us who we are The soul does that Drawing on the most important research studies in neuroscience Dr Egnor presents evidence that the brain alone does not explain the mind He explores using modern neuroscience and his vast surgical experience how inside every damaged brain there is a thinking feeling person with a spiritual soul that transcends the brain He also uses fascinating case studies to show how research on conjoined twins who share parts of their brains on patients in deep coma who are still able to communicate with people around them on near death experiences and on artificial intelligence all make a scientific case for the existence of the spiritual human soul Engaging thought provoking and groundbreaking The Immortal Mind shows here that some aspect of who we are is spiritual and immortal transcending the physical body [Book Review Index Cumulation](#) Dana Ferguson,2005-09 Book Review Index provides quick access to
