*The Art of My Life* Joe Pearce, 2020-01-06 Award-winning fine artist Joe Pearce brings wisdom, humor, and creative perspective to the trials, tribulations, and party that is life. After growing up in the drug culture of the 70s, Joe Pearce turned to a fundamentalist church for personal redemption. He felt called to become a traveling evangelist and musical artist, which is how he met his wife. Joe eventually transitioned away from that belief system to become part of corporate America. Joe was working a job in financial services 20 years into marriage when his wife developed severe schizophrenia. *The Art of My Life* explores Joe's struggles with care taking for and coping with his wife's illness. Joe tells a raw, blatantly honest narrative of his unique life experiences while weaving in themes of his and others' art with the hopes of helping people find their passion along their own unique paths.

**Group Work** Nano McCaughan, 2021-11-07 Group work is central to social work, whether it be work with individuals and families, residential care, community work, management, or social work education. Despite however the upsurge of interest in this aspect of social work method at the time, *Group Work Learning and Practice* originally published in 1978 represented the first attempt at providing an up-to-date and carefully integrated source book for students in the form of a series of mainly original and British papers on social group work. Its knowledge base, the possible varieties of practice settings and objectives, and its implications for social work education and training models, for new directions in social work education, suggested that the small group was to become the core system around which much future social work teaching would be based. The main concern of this new National Institute for Social Work reader, the development and demonstration of intervention skills in practice, would be particularly relevant. The book draws attention to the opportunities for work with groups in the community, in residential institutions, and with families, where the emphasis was rapidly shifting towards the need for greater understanding and use of the small group dimension. *Group Work Learning and Practice* would have been widely welcomed both by specialists in group work at the time and all those more generally interested in social work methods as teachers, students, practitioners, supervisors, and as local authority training officers. It would also be of interest to a wider readership of teachers, youth workers, and those concerned with the group dynamics and counselling fields.
