## CREATE USER

[Contents](#) / [Account Management](#)

### Syntax

```
CREATE USER user [IDENTIFIED BY [PASSWORD] 'password']  
    [, user [IDENTIFIED BY [PASSWORD] 'password']] ...
```

The CREATE USER statement creates new MySQL accounts. To use it, you must have the global CREATE USER privilege or the INSERT privilege for the mysql database. For each account, CREATE USER creates a new row in the mysql.user table that has no privileges. An error occurs if the account already exists. Each account is named using the same format as for the GRANT statement; for example, 'jeffrey'@'localhost'. If you specify only the user name part of the account name, a host name part of '4' is used. For additional information about specifying account names, see [GRANT](#).
