Language Policy, Ideology and Educational Practices in a Globalised World Delombera Negga, Monika Szirmai, Daniel Chan, 2017 The challenges posed by globalization for languages policies and education form the basis of this collection of selected doubly blind peer reviewed articles which have been put together following the 2014 PLIDAM conference on Policies and Ideologies in Language Teaching Actors and discourses The chapters collected in this volume revolve around the topic of globalization which we understand to be a blend of ideas covered by at least four meanings 1 internationalization in reference to the growing interdependence and transactions between countries 2 liberalization which has to do with the forming of an open and borderless world economy 3 universalization of certain phenomena around the world and 4 westernization with an emphasis on the influence of Western values gender equality freedom of speech and

other ideas inspired by the West over the rest of the world The four broad themes that the chapters are organised into are I Policies in Language Teaching and Learning II Language Policy Ideology and Minority Languages III Language Teaching and Learning across Cultures IV Language Teaching and Learning with Technology Contributing to the knowledge discussion and debate about the impact that globalization has had on languages policies and education in a wide variety of contexts we hope that this book will be useful and informative to language researchers policy makers and anyone with an interest in the intersecting field between languages policies and education
