**Framing War** Francesco Olmastroni, 2014-10-10 Most research on framing has focused on media and elite frames the ways that the mass media and politicians present information about issues and events to the public Until now the process by which citizens opinions may affect the initial frame building process has been largely ignored The two way flow of influence between public opinion and decision makers has been analyzed more from a top down than a bottom up perspective Olmastroni addresses this issue by introducing a cyclical model of framing Additionally most empirical studies on media framing have centered on the United States Olmastroni s text seeks to overcome this limitation of prior research by examining different types of framing in three different countries Framing War uses the recent war on Iraq as a case study focusing on the elite and media framing of this event in order to examine the interaction between the political elite and the mass public in three Western democracies France Italy and the US during the early and on going stages of the military crisis The book analyzes whether and potentially the extent to which decision makers tracked and responded to public opinion in presenting their foreign policy choices It examines the strategies and approaches that governments potentially adopted to influence public opinion towards either the need for or the lack of need for a military intervention By representing the framing paradigm as a cycle Olmastroni shows how each actor within the system i e government and other elites news media and public opinion is linked to the others and contributes to the final representation of an issue In contrast with other theoretical perspectives of framing this book states that the framing influence does not only proceed from the government to the public but it often moves at the same level of the system with each actor playing different roles Olmastroni s insights on framing are significant for researchers in international relations political communication public opinion comparative politics and political psychology as well as policy analysts journalists and commentators *The New York Times*, 2009 Facsimile reproductions of more than 300 of the most significant and pivotal New York Times front pages *Communication and Language Analysis in the Public Sphere* Hart, Roderick P., 2014-01-31 Although language is certainly individualized most people conform to linguistic norms because of their surroundings Over time particular words and phrases are popularized by the media social trends or world events and with emergence of internet technologies the communication between all types of people is much easier *Communication and Language Analysis in the Public Sphere* explores the influence of the World Wide Web on the relationships between ordinary citizens and the ability to communicate with politicians celebrities and the media As some words may gain popularity worldwide and others may begin to define a specific discipline This book is essential for linguistics researchers scholars and professionals interested in determining these patterns and how they affect groups and individuals *Watching Darkness Fall* David McKean, 2021-11-09 A gripping and groundbreaking account of how all but one of FDR s ambassadors in Europe misjudged Hitler and his intentions As German tanks rolled toward Paris in late May 1940 the U S Ambassador to France William Bullitt was determined to stay put holed up in the Chateau St Firmin in Chantilly his

country residence Bullitt told the president that he would neither evacuate the embassy nor his chateau an eighteenth Renaissance manse with a wine cellar of over 18 000 bottles even though we have only two revolvers in this entire mission with only forty bullets As German forces closed in on the French capital Bullitt wrote the president In case I should get blown up before I see you again I want you to know that it has been marvelous to work for you As the fighting raged in France across the English Channel Ambassador to Great Britain Joseph P Kennedy wrote to his wife Rose The situation is more than critical It means a terrible finish for the allies David McKean s *Watching Darkness Fall* will recount the rise of the Third Reich in Germany and the road to war from the perspective of four American diplomats in Europe who witnessed it firsthand Joseph Kennedy William Dodd Breckinridge Long and William Bullitt who all served in key Western European capitals London Berlin Rome Paris and Moscow in the years prior to World War II In many ways they were America s first line of defense and they often communicated with the president directly as Roosevelt s eyes and ears on the ground Unfortunately most of them underestimated the power and resolve of Adolf Hitler and Germany s Third Reich *Watching Darkness Fall* is a gripping new history of the years leading up to and the beginning of WWII in Europe told through the lives of five well educated and mostly wealthy men all vying for the attention of the man in the Oval Office [The New York Times Magazine](#) ,2009 [American Civil War](#) Spencer C.
