Niagara 1814 The Final Invasion Campaign:

Niagara 1814 Jon Latimer, 2009-05-19 The War of 1812 1812 1814 has the strange distinction of being a war largely forgotten by both of its main participants Despite being overshadowed by the Napoleonic Wars raging in Europe the War of 1812 saw Americans British Canadians and Native Americans wage an increasing brutal conflict all along the border By 1814 with war coming to a close in Europe the Americans decided to launch one last major land offensive in an attempt to seize Canada Although previous attempts had most often ended in disaster the American army of 1814 contained several highly trained units under competent leadership including the legendary Winfield Scott This final Niagara campaign saw a number of pitched battles including Chippawa Lundy's Lane and Cook's Mill where the American Bluecoats matched the British shot for shot However due to poor planning at the highest levels of American office the campaign was ultimately a failure and the result ensured the survival of Canada as an independent state A critically acclaimed researcher on the War of 1812 author John Latimer presents a new look at an oft forgotten yet crucially important campaign in the history of North America

Warfare and Logistics along the US-Canadian Border during the War of 1812 Christopher D. Dishman, 2021-12-15 Christopher D Dishman provides a comprehensive study of the combat that took place along the US Canadian frontier during the War of 1812 where the bulk of the war's fighting took place The border region which included the St Lawrence River and Great Lakes served as Britain's supply line to receive and distribute supplies The region's size varied topography and undeveloped infrastructure however made this a challenging environment to move troops and supplies to the battlefield Few large settlements or all season roads intersected the region so reinforcements food or ammunition could be weeks or months away from their destination Dishman analyzes the critical role of logistics and explains how the safe and timely arrival of soldiers shipwrights cannons and other provisions often dictated a battle's outcome before a shot was fired The northern frontier between the United States and the British Empire remained the focus of US military efforts throughout the war The president and Congress declared war on Britain to force its leaders to negotiate on bilateral issues and America's only viable offensive military option was to invade Canada Victory for either side depended on enough men and materials arriving promptly at a remote outpost or dockyard from distant supply depots Canada could not produce many of its needed items in country so America retained a distinct advantage with its indigenous metalworks and iron industries These components proved critical in a war that depended on the rushed construction of vessels that could outgun their enemy Warfare and Logistics along the US Canadian Border during the War of 1812 is a deeply researched and highly readable assessment of the successes and failures of military operations from 1812 to 1814 The book also highlights the interdependencies between land and naval operations in the war and illuminates the influence of changing military and political factors on Britain's and America's military objectives Warfare and Logistics along the US Canadian Border during the War of 1812 also evaluates the performance of the military and civilian officers as Dishman brings a distant war's battles to life with stories from
