Halliwell, 2021-12-02 The original edition of Beyond and Before extends an understanding of progressive rock by providing a fuller definition of what progressive rock is was and can be Called by Record Collector the most accomplished critical overview yet of progressive rock and one of their 2011 books of the year Beyond and Before moves away from the limited consensus that prog rock is exclusively English in origin and that it was destroyed by the advent of punk in 1976 Instead by tracing its multiple origins and complex transitions it argues for the integration of jazz and folk into progressive rock and the extension of prog in Kate Bush Radiohead Porcupine Tree and many more This 10 year anniversary revised edition continues to further unpack definitions of progressive rock and includes a brand new chapter focusing on post conceptual trends in the 2010s through to the contemporary moment The new edition discusses the complex creativity of progressive metal and folk in greater depth as well as new fusions of genre that move across global cultures and that rework the extended form and mission of progressive rock including in recent pop concept albums All chapters are revised to keep the process of rethinking progressive rock alive and vibrant as a hybrid open form Moving Forward on Haiti United States.
