

# My FORTY YEARS with FORD

CHARLES E. SORENSEN

with Samuel T. Williamson  
Introduction by David L. Lewis

# My Forty Years With Ford

**Wenbin Ji**

## **My Forty Years With Ford:**

**My Forty Years with Ford** Charles E. Sorensen,2006-01-09 An unflinching eyewitness account of the Ford story as told by one of Henry Ford's closest associates In My Forty Years with Ford Charles Sorensen sometimes known as Henry Ford's man sometimes as Cast iron Charlie tells his own story and it is as challenging as it is historic He emerges as a man who was not only one of the great production geniuses of the world but also a man who called the plays as he saw them He was the only man who was able to stay with Ford for almost the full history of his empire yet he never hesitated to go against Ford when he felt the interests of the company demanded it When labor difficulties mounted and Edsel's fatal illness was upon him Sorensen sided with Edsel against Henry Ford and Harry Bennett and he insisted that Henry Ford II be brought in to direct the company despite the aging founder's determination that no one but he hold the presidential reins First published in 1956 My Forty Years with Ford has now been reissued in paperback for the first time The Ford story has often been discussed in print but has rarely been articulated by someone who was there Here Sorensen provides an eyewitness account of the birth of the Model T the early conflicts with the Dodge brothers the revolutionary announcement of the five dollar day and Sorensen's development of the moving assembly line a concept that changed our world Although Sorensen conceived designed and built the giant Willow Run plant in nineteen months and then proceeded to turn out eight thousand giant bombers his life's major work was to make possible the vision of Henry Ford and to postpone the personal misfortune with which it ended My Forty Years with Ford is both a personal history of a business empire and a revelation that moves with excitement and the power of tragedy

My Forty Years with Ford Charles Sorensen E,1966

**My Forty Years with**

**Ford, Etc. ([By] C.E. Sorensen, with Samuel T. Williamson.).** Charles Emil SORENSEN, Henry FORD (the Elder, of Detroit.), Samuel Thurston WILLIAMSON, 1962

Edsel Henry L Dominguez,2002-10-01 Carefully crafted from thousands of Ford archives written interviews and first hand accounts told by people who knew the man Edsel The Story of Henry Ford's Forgotten Son brings into focus the remarkable life of Edsel Ford The book chronicle's Edsel's life from his early days of growing up in and around his father's company through the controversy of his World War I draft notice and eventual exemption the design change from the Model T to the Model A and the creation of the Ford Foundation 27 chapters in all help to shed light on the life of a man who preferred to spend most of his life out of the limelight

*The People's Tycoon* Steven Watts,2009-03-04 How a Michigan farm boy became the richest man in America is a classic almost mythic tale but never before has Henry Ford's outsized genius been brought to life so vividly as it is in this engaging and superbly researched biography The real Henry Ford was a tangle of contradictions He set off the consumer revolution by producing a car affordable to the masses all the while lamenting the moral toll exacted by consumerism He believed in giving his workers a living wage though he was entirely opposed to union labor He had a warm and loving relationship with his wife but sired a son with another woman A rabid anti Semite he nonetheless embraced African American workers in the era of Jim Crow

Uncovering the man behind the myth situating his achievements and their attendant controversies firmly within the context of early twentieth century America Watts has given us a comprehensive illuminating and fascinating biography of one of America's first mass culture celebrities **From the American System to Mass Production, 1800-1932** David

Hounshell, 1984 David A Hounshell's widely acclaimed history explores the American genius for mass production and traces its origins in the nineteenth century American system of manufacture. Previous writers on the American system have argued that the technical problems of mass production had been solved by armsmakers before the Civil War. Drawing upon the extensive business and manufacturing records of leading American firms Hounshell demonstrates that the diffusion of arms production technology was neither as fast nor as smooth as had been assumed. Exploring the manufacture of sewing machines and furniture bicycles and reapers he shows that both the expression of mass production and the technology that lay behind it were developments of the twentieth century attributable in large part to the Ford Motor Company. Hounshell examines the importance of individuals in the diffusion and development of production technology and the central place of marketing strategy in the success of selected American manufacturers. Whereas Ford was the seedbed of the assembly line revolution it was General Motors that initiated a new era with its introduction of the annual model change. With the new marketing strategy the technology of the changeover became of paramount importance. Hounshell chronicles how painfully Ford learned this lesson and recounts how the successful mass production of automobiles led to the establishment of an ethos of mass production to an era in which proponents of Fordism argued that mass production would solve all of America's social problems Ford: Expansion and challenge, 1915-1933, by A. Nevins and F. E. Hill Allan Nevins, Frank Ernest Hill, 1954

**Friends Or Foes?** Norman E. Saul, 2006 With Friends or Foes Norman Saul continues his monumental multivolume magnum opus on U.S. Russian relations over the course of 200 years. This fourth volume provides the first comprehensive study in any language of an era that shaped the rest of the century and captures the major changes in relations between two nations on the verge of becoming dominant global powers. Among other things Saul examines the rationale for America's failure to recognize the Soviet government through the early 1930s analyzing the impact of the Red Scare and the roles of the State Department Russian migrants, religious groups and key individuals like Charles Evans Hughes, Robert Kelley, Herbert Hoover, Boris Skvirsky, Olga Kameneva and Maxim Litvinov on the policy process. In addition he recalls the American Relief Administration's gigantic effort to help Russian peasants and garners new material from American business records on concession arrangements and commerce and on Soviet responses during the first Five Year Plan. He also records travelers' impressions, cultural exchange and the role of academia in each country particularly the contribution of Russian migrant scholars to American education and the contributions of American journalists in Russia. Saul also reveals the tendency on both sides to preserve an atmosphere of secrecy conducting business behind closed doors and rarely on paper. His prodigious research in the Hoover Presidential Library, the Franklin Roosevelt Library and the Hoover Institution at

Stanford University incorporating overlooked Diplomat Post Records and featuring an interview with George Kennan on his diplomatic role has yielded a wealth of new insights into what really happened during a period in the history of the relations between the two countries that remains mysterious and controversial Breaking new ground in diplomatic economic social and cultural history Saul's book illuminates both the mutual fascination that briefly permitted peaceful coexistence and eventual alliance and the ideological battles that ultimately led to the Cold War    **Ford's Christian Repository** ,1872

**Notes of the Early History of Union Township** Samuel Park,1870    *Ford: Decline and rebirth, 1933-1962*, by A. Nevins and F. E. Hill Allan Nevins, Frank Ernest Hill, 1954    **Research Guide to American Historical Biography** Robert Muccigrosso, 1988 Description and evaluation of the most important secondary and primary sources for 452 American historical figures in all five volumes T p verso v 5    **Wisconsin Magazine of History** ,1955    American National Biography ,1999    **Henry Ford and Time** David E. Nye,1974    **American Odyssey** Robert E. Conot,1985    **Contrasts** Robert E. Knoll,1959    **American Decades: 1920-1929** Vincent Tompkins, Judith Baughman, Victor Bondi, Richard Layman, Eric L. Bergeron, James F. Tidd, 1996 Intended as a reference source for American social history this volume discusses the people events and ideas of the period 1920 1929 After an introductory overview and chronology subject chapters follow with subject specific timelines and alphabetically arranged entries    *The Model T* Robert Casey, 2008-07-31 Richly illustrated with archival photos from The Henry Ford The Model T is the definitive history of an iconographic piece of American technology    *Readers' Guide to Periodical Literature* ,1959 An author subject index to selected general interest periodicals of reference value in libraries
