My Planets David P. Reiter, 2011 Winner 2012 Western Australian Premier's Book Award for Digital Narrative Imagine this You're 50 years old An only child from a Jewish family The people you thought of as your mother and father are dead Then in the middle of the night you get a phone call from the other side of the planet telling you they've found your mother Alive Your real mother Suddenly you become the oldest of seven across two families All your assumptions about yourself are swept away From Ground Zero you begin a journey of rediscovery to reclaim your identity But the truths you gather are relative subjective Like speculating on the nature of the universe from the perspective of one planet and then again from another My Planets is in fact a suite of works a physical book an enhanced eBook incorporating images music sound and video with spoken word and text a film and now an interactive website Like most of David P Reiter's work it challenges the boundaries changing shape with the message inviting the reader to time travel on a Tardis of the mind Making his planets your own
