Hanif Kureishi B. J. Moore-Gilbert,2001 This comprehensive critical study of Hanif Kureishi details the writer's career to date Kureishi has explored a number of key social and cultural issues of recent years including the legacies of colonialism the paradoxes of multi culturalism changing conceptions of class gender and sexuality globalization and relations between popular culture and the canon Bart Moore Gilbert's authoritative text places Kureishi's writing in its historical social cultural and critical contexts and provides detailed readings of his major works *Transcultural English Studies* Frank Schulze-Engler,Sissy Helff,2009 What is most strikingly new about the transcultural is its sudden ubiquity Following in the wake of previous concepts in cultural and literary studies such as creolization hybridity and syncretism and signalling a family relationship to terms such as transnationality translocality and transmigration transcultural terminology has unobtrusively but powerfully edged its way into contemporary theoretical and critical discourse The four sections of this volume denote major areas where transcultural questions and problematics have come to the fore theories of culture and literature that have sought to account for the complexity of culture in a world increasingly characterized by globalization transnationalization and interdependence realities of individual and collective life worlds shaped by the ubiquity of phenomena and experiences relating to transnational connections and the blurring of cultural boundaries fictions in literature and other media that explore these realities negotiate the fuzzy edges of ethnic or national cultures and participate in the creation of transnational public spheres as well as transcultural imaginations and memories and finally pedagogy and didactics where earlier models of teaching other cultures are faced with the challenge of coming to terms with cultural complexity both in what is being taught and in the people it is taught to and where target cultures have become elusive The idea of locating culture and literature exclusively in the context of ethnicities or nations is rapidly losing plausibility throughout an English speaking world that has long since been multi rather than monolingual Exploring the prospects and contours of Transcultural English Studies thus reflects a set of common challenges and predicaments that in recent years have increasingly moved centre stage not only in the New Literatures in English but also in British and American studies

Empire and After Graham MacPhee,Prem Poddar,2007 Ranging from analyses of contemporary culture postcolonial writing political rhetoric and postimperial memory after 9 11 this collection demonstrates that far from being parochial and

self involved the question of Englishness offers an important avenue for thinking about the politics of national identity

Black British Literature Mark Stein,2004 In this fascinating book Mark Stein examines black British literature centering on a body of work created by British based writers with African South Asian or Caribbean cultural backgrounds Linking black British literature to the bildungsroman genre this study examines the transformative potential inscribed in and induced by a heterogeneous body of texts Capitalizing on their plural cultural attachments these texts portray and purvey the transformation of post imperial Britain Stein locates his wide ranging analysis in both a historical and a literary context He argues that a cross cultural and interdisciplinary approach is essential to understanding post colonial culture and society The book relates black British literature to ongoing debates about cultural diversity and thereby offers a way of reading a highly popular but as yet relatively uncharted field of cultural production With the collapse of its empire with large scale immigration from former colonies and with ever increasing cultural diversity Britain underwent a fundamental makeover in the second half of the twentieth century This volume cogently argues that black British literature is not only a commentator

on and a reflector of this makeover but that it is simultaneously an agent that is integral to the processes of cultural and social change Conceptualizing the novel of transformation this comprehensive study of British black literature provides a compelling analytic framework for charting these processes
