Ernesto De Martino on Religion Dr. Fabrizio M. Ferrari, 2014-09-11 Ernesto de Martino was a major critical thinker in the study of vernacular religions producing innovative analyses of key concepts such as folklore magic and ritual. His methodology stemmed from his training under the philosopher Benedetto Croce whilst his philosophical approach to anthropology borrowed from Marx and Gramsci. Widely celebrated in continental Europe de Martino's contribution to the study of religion has not been fully understood in the Anglophone world though some of his works Primitive Magic the Psychic Powers of Shamans and Sorcerers and The Land of Remorse a Study of Southern Italian Tarantism have been translated. This volume presents a comprehensive overview of de Martino's life and work the thinkers and theories which informed his writings his contribution to the study of religions and the potential of his methodology for contemporary scholarship.

Chinese-English Contrastive Grammar David C. S. Li, Zoe Pei-sui Luk, 2017-07-03 The main objective of Chinese English Contrastive Grammar An Introduction is to familiarize the reader with a subset of the learning difficulties and common errors in ESL/EFL pronunciation and lexico grammatical structures encountered by Chinese learners and users of English in Hong Kong and beyond. It also helps readers understand some of the ways in which the Chinese language has undergone structural change as a result of Europeanization. The book begins with a review of Cantonese English contrastive phonology and is followed by a detailed analysis of lexico grammatical deviations found among Chinese ESL/EFL learners. It concludes with a brief history of the Europeanization of the Chinese language and a discussion of commonly encountered lingua cultural problems encountered by Chinese users of English in intercultural communication settings. This book is written primarily for teachers and students specializing in language related disciplines. Scholars who wish to understand the acquisitional challenges for Chinese students in the process of learning English as an additional language will also find the book an informative reference. David C. S. Li and Zoe Pei-sui Luk's brand new introduction to Chinese English contrastive grammar covers a number of key topics and comes with copious data abundant exemplification and in-depth analyses. A must read for all who are interested in the similarities and differences between the two languages and why.

K. K. Luke, Nanyang Technological University. This is a book which has long been needed. Drawing on their own research and teaching experience the authors have produced a linguistically accurate and insightful but also very readable book. It should be required reading for language teachers in Hong Kong and the Greater China region.
