Manual - the State of Rhode Island and Providence Plantations Rhode Island. Dept. of State, 1898      **Real Estate Record and Builders' Guide** ,1871      The Official Railway Guide ,1899      **Machinery Buyers' Guide** ,2003      Jno. B. Jeffery's Guide and Directory to the Opera Houses, Theatres, Public Halls, Bill Posters, Etc. of the Cities and Towns of America ,1883      **Push Guide to Which University** Johnny Rich, 2005-05 This popular guide has been fully updated and redesigned to reflect exactly what today's students want to know. It is the most accessible guide to higher education and student life in the UK and provides reliable, lively and unbiased information on what universities really offer. The establishments are listed alphabetically with each entry providing a wealth of information from a description of the campuses to famous alumni. A separate section supplies a list of courses and which universities offer them, making it easy for the reader to cross-reference their chosen course with the right university.

**The visitor's guide to Oxford. (Abridged and rearranged from [J.H. Parker's] 'Handbook for visitors to Oxford') [by J. Parker].** John Henry Parker, 1888      New York School Journal ,1898      *The Illustrated Guide to Sheffield and the Surrounding District ...* John Taylor (of Sheffield.), 1879      *New Handbook of British Pottery & Porcelain Marks* Geoffrey A. Godden, 1999 Geoffrey Godden's HANDBOOK is the standard pocket reference for amateur and professionals alike, an invaluable aid for anyone who needs an authoritative identification guide to British ceramics. Continuously in print for thirty years, it has now been thoroughly revised, updated and extended in the light of the latest research on the historic porcelain manufacturers and potters. The main section lists the principal firms arranged alphabetically, shows the marks used by that firm and gives its address, working period and the dates when the mark was used. The aim is to provide all the pre-1900 marks that the dealer or collector is likely to come across. In addition, the book records over 700 combinations of initials known to have been used as identifying signs by the potters, listed with their working periods and full details of over 900 Staffordshire potters. A new listing of pattern and shape registrations from 1842 to 1883 has been added together with guidance on further reading and on the collectability of the main types. An amazing achievement in clear compression.
