Nice Book Constitution Belgium Contextual Analysis Constitutional:

The Constitution of Belgium Patricia Popelier,Koen Lemmens,2015-10-22 The Belgian Constitution once described as a model of consensus democracy has now become an enigma in comparative federalism On the one hand it demonstrates features which suggest institutional instability as well as elements that enhance the probability of secession On the other hand Belgium continues to exist as a federal system based upon linguistic bipolarity This linguistic bipolarity dominates Belgian politics and has shaped the design of Belgium s institutions as well as the Constitution s fundamental organising principles concepts of federalism democracy separation of powers constitutionalism and the rule of law In this book the institutional structure and the principles governing the Belgian constitutional system are explained in the light of its historical demographic and political context Linguistic bipolarity and its historical evolution explain the establishment of the Belgian State structure as a dual federalism with exclusive powers instruments for consensus making and obstruction and elements of confederal decision making It also explains the evolution in the concept of principles of democracy and the rule of law Besides describing the devolutionary process the book also incorporates two other elements that have shaped the Belgian constitutional landscape fundamental rights and Europeanisation

European Yearbook of Constitutional Law

2020 Ernst Hirsch Ballin,Gerhard van der Schyff,Maarten Stremler,Maartje De Visser,2021-03-27 The European Yearbook of Constitutional Law EYCL is an annual publication devoted to the study of constitutional law It aims to provide a forum for in depth analysis and discussion of new developments in the field both in Europe and beyond This second volume examines the constitutional positioning of cities across space and time Unrelenting urbanisation means that most people are or soon will be living in cities and that city administrations become in many respects their quintessential governing units Cities are places where State power is operationalised and concretised where laws and government policies transform from parchment objectives to practical realities In a similar vein cities are also places for the realisation of the constitutional rights and liberties enjoyed by individuals The book is organised around three sets of relations that await further unpacking in theory as well as practice that between cities and other institutions in the national constitutional architecture that between cities and their inhabitants and that between cities and international organisations The contributions to this book show the marked diversity in the role and powers available to cities in Europe and beyond and identify principles and approaches to help stipulate new ways of thinking about the legal role and relevance of cities going forward Ernst Hirsch Ballin is distinguished university professor at Tilburg University and vice dean for research of Tilburg Law School Gerhard van der Schyff is associate professor at Tilburg Law School Department of Public Law and Governance Maarten Stremler is lecturer at Maastricht University Faculty of Law Department of Public Law Maartje De Visser is associate professor at SMU School of Law Singapore

Polycentric Governance and the Good Society Pablo Paniagua,David Thunder,2024-08-22 Polycentric Governance and the Good Society A Normative and Philosophical Investigation offers an examination of the idea of

polycentric governance as one of the pillars of a flourishing human society Rather than following the conventional path of suppressing complexity and diversity for the sake of reaching agreement on justice and political stability David Thunder and Pablo Paniagua see complexity and diversity as assets that should be leveraged to make the Open Society a more prosperous resilient and flourishing place to live Polycentric Governance and the Good Society provides valuable food for thought for academics and students looking for a probing cross disciplinary discussion of the ethos and institutions of liberal democracy under conditions of social pluralism Although the volume includes diverse disciplinary lenses such as public choice theory MacIntyrean social theory and constitutional law the driving concern is to exhibit the potential advantages of polycentric approaches to governance and social coordination for constructing a feasible and morally attractive social order This is the first extended academic work to explore in depth the advantages not only from an economic and organizational standpoint but also from a broader ethical sociological and anthropological perspective of polycentric governance arrangements
