Max Streaming Top Returns:

The Coup Maker Caleb Havebond, 2012-01-11 Colonel James Carlton a decorated veteran pilot of the United States Air Force in the Vietnam War is haunted by a nightmarish event that occurred one deep behind enemy lines in the ravaged jungles of Vietnam perpetrated by men within Americas shadow Government Victor Matine is a clandestine C I A covert operative known as an untouchable Victor carries out the Agencies various black bag operations around the world in his illustrious thirty eight year career Colonel Carlton is an F 4 Phantom fighter pilot stationed out of the 433rd tactical fighting wing in Ubon Thailand whilst on a routine bombing mission he is shot down and safely ejects into the jungle leading him into a perilous situation below

The Business Strategies of the Major Hollywood Film Studios (1929-2024) Guy Di Piazza, 2025-02-21 Surveying the strategies employed by film studios to market and produce their most successful films between 1929 and present day this book incorporates multilayered comprehensive analysis on the media industry and how it works Author and business strategist Guy Di Piazza draws on over 25 years of experience and provides insights into the corporate business market and production strategies of the leading motion picture companies through a 95 year history Investigating the initiatives employed particularly for the most successful or premium films allows Guy to evaluate the commercial and creative strategies of the major film studios during four distinct historical periods The golden age of Hollywood 1929 1949 Hollywood in decline and in transition 1950 1966 The new American cinema 1967 1976 and The era of media giants 1977 2024 With extensive business strategy analysis this book assesses the film industry from a commercial and economic perspective to bring better understanding to readers as to how the major studios have evolved over time and what that means for today's digitally connected world Ideal for researchers and advanced students studying film business and the media industry as well as professionals in the film business

Engine Modeling and Control Rolf Isermann, 2014-07-01 The increasing demands for internal combustion engines with regard to fuel consumption emissions and driveability lead to more actuators sensors and complex control functions A systematic implementation of the electronic control systems requires mathematical models from basic design through simulation to calibration The book treats physically based as well as models based experimentally on test benches for gasoline spark ignition and diesel compression ignition engines and uses them for the design of the different control functions The main topics are Development steps for engine control Stationary and dynamic experimental modeling Physical models of intake combustion mechanical system turbocharger exhaust cooling lubrication drive train Engine control structures hardware software actuators sensors fuel supply injection system camshaft Engine control methods static and dynamic feedforward and feedback control calibration and optimization HiL RCP control software development Control of gasoline engines control of air fuel ignition knock idle coolant adaptive control functions Control of diesel engines combustion models air flow and exhaust recirculation control combustion pressure based control HCCI optimization of feedforward and feedback control smoke limitation and emission control This book is an introduction to

electronic engine management with many practical examples measurements and research results It is aimed at advanced students of electrical mechanical mechatronic and control engineering and at practicing engineers in the field of combustion engine and automotive engineering *Dependable Software Systems Engineering* A. Pretschner,D. Peled,T.

Hutzelmann,2017-10-24 Cyber physical systems closely combine and coordinate subsystems consisting of both computational and physical elements Such systems have become indispensable in the fields of aerospace automotive and the automation industries as well as in consumer appliances Safety security and reliability are all essential elements of the trustworthiness of these modern cyber physical systems Protecting the data within such systems from external attack security and protecting the environment from any potential malfunction or misuse of these systems safety are subjects traditionally considered separately but a closer look reveals that techniques for the construction and analysis of the software based systems used in both security and safety are not necessarily fundamentally different This book presents papers from the 2016 Marktoberdorf summer school on software engineering held in Marktoberdorf Germany in August 2016 As its title Dependable Software Systems Engineering suggests the lectures at this summer school explored various aspects of the engineering of more dependable software systems and the 10 lectures included here cover subjects from programming languages and formal analysis tools to verification validation and assurance The book will be of interest to all those whose work involves the development and testing of more reliable and secure software systems *Watching TV* Harry Castleman,Walter J.

Podrazik,2024-12-16 Castleman and Podrazik present a season by season narrative that encompasses the eras of American television from the beginning in broadcast through cable and now streaming They deftly navigate the dizzying array of contemporary choices so that no matter where you start on the media timeline Watching TV provides the context and background to this multi billion dollar enterprise Drawing on decades of research the authors weave together personalities popular shows corporate strategies historical events and changing technologies enhancing the main commentary with additional elements that include fall prime time schedule grids for every season date box timelines highlighted key text and selected photos Full of facts firsts insights and exploits from now back to the earliest days Watching TV is the standard chronology of American television and reading it is akin to channel surfing through history The fourth edition updates the story into the 2020s and looks ahead to the next waves of change This new edition is the first to also be available in a digital format *CTV Advertising. Can TTD Lead the Way with Neuromarketing?* ,2023-04-21 Seminar paper from the year 2022 in the subject Communications Public Relations Advertising Marketing Social Media grade 1 0 Hult International Business School language English abstract The Trade Desk hereinafter TTD is a global technology firm with a focus on real time programmatic marketing automation solutions goods and services TTD identifies the main challenge on how TTD should work with significant TV platforms and providers to help drive this culture change among advertisers A potential for marketers has arisen as a result of the emergence of CTV More influential platforms including Netflix Disney and HBO Max have lately

committed offering discounted subscriptions in return for a few minutes of ads between series and movies The promise of highly targeted data driven ad impressions for TV which is frequently the largest campaign component has replaced the conventional upfront approach where marketers commit billions in advance with no clear notion of who will see their ads To delve into this problem and narrow it down to finally come up with a more detailed research question the peal the onion approached was used The funnel process within the framework of this research entails current data and its outlook of the ads market both for traditional as well as CTV ads a breakdown of both advertisement methods its bidding allocation processes differences as well as its ad and disadvantages are explored Furthermore the significance of data collection opportunity for CTV ads and problems that might arise with it are discussed addition ally to opportunities and risks that could emerge with this new shift to CTV ads before finally ending in the research question Can TTD revolutionize CTV advertising through neuromarketing and establish itself as the leading software platform for CTV platforms by displaying highly personalized ads to each unique user Even though the current CTV advertising already provides promising metrics to measure the success rate of the respective advertisements ads are only dis tributed to the accoding series and movies rather to the user him herself Thus if TTD would establish a solution to be able to show specific ads to specific users the value both quantitative ROI and qualitive visiting the website shopping the product will increase significantly Digital Design ,1983 Collier's ,1899

Capital Allocation: Principles, Strategies, and Processes for Creating Long-Term Shareholder Value David R. Giroux,2021-10-26 Seize the competitive edge through intelligent differentiated capital allocation The intelligent deployment of capital is one of the most effective ways to create long term value But despite this there are very few capital allocation experts on the boards of the largest publicly traded companies and academic research consistently finds that most firms deploy capital sub optimally Capital Allocation aims to educate senior leaders board members investors students and anyone interested in business on this important topic Until now very little has been written on capital allocation outside of academia even though the strategic deployment of excess capital is an increasingly significant source of competitive advantage for many companies David Giroux Chief Investment Officer for Equities and Multi Asset and Head of Investment Strategy at T Rowe Price covers the entire gamut of capital allocation issues including optimal capital structure capital allocation alternatives mergers acquisitions and special situations Capital Allocation walks you through this critical topic from beginning to end including Stories of companies that allocated capital in ways that created significant shareholder value Several real life decision making models you can use for strategically allocating your firm s capital Guidelines for generating high returns in the long term to build sustainable shareholder wealth Giroux uses academic research personal experience and uncomplicated mathematics to reveal approaches and actions that create long term value He provides case studies from Kodak Comcast Thermo Fisher Scientific Danaher General Electric Microsoft and others showing how capital allocation has and hasn t worked in real life situations And he shows how to use capital allocation to head off possible activist investors

Capital Allocation offers everything you need to know for deploying capital wisely to outperform your competitors over the long term **TV Guide** ,1995 **Microbiology Abstracts** ,1974 **Animation Magazine** ,2002 *The Bulletin* ,2001
