[Reimagining Customer Service in Healthcare](#) Jennifer L. FitzPatrick, MSW, CSP, 2023-02-28 Do you look forward to your next hospitalization or medical procedure? If not, you are far from alone. Very few people enjoy needing a doctor, physical therapist or other healthcare provider. Even fewer look forward to needing a hospital, assisted living, home health or hospice services for themselves or their loved ones. Dread of interacting with the healthcare system has skyrocketed because of the pandemic. Distrust in public health officials and agencies is at an all-time high. Patients have died alone in the hospital because of ongoing COVID 19 policies. Some outpatient health and mental health providers still refuse to see patients in person. Prior to March 2020, patients dreaded the thought of needing healthcare services. Now, several years after waiting for things to get better, they hate the thought of needing these services even more. *Reimagining Customer Service in Healthcare* helps leaders and clinicians transform their organizations with simple, creative strategies. The results? Previously reluctant, uneasy and resistant patients, clients and family caregivers become less stressed and more trusting.
