Contributors in a Culture of Consumerism and Skepticism Dr. Brandon Tatum, 2023-03-13 What do we want for the next generation What does our future hold What can we do as adults to foster a positive future for our kids Most parents grandparents teachers and ministers I talk to want to equip the next generation with the necessary tools to be difference makers in their world but they don't know how to It feels as if we are fighting against a cultural wave that is making it harder and harder to lead our kids to love God and make a difference So what do we do This book takes a deep look into the culture of Generation Z and Generation Alpha The intent is to create an understanding of how to raise a generation of contributors to the kingdom and how to remove the barriers that stand in our way We all know that these emerging generations are welcoming us into a new digital frontier full of consumption technology and entertainment that is more focused on happiness than contribution Our kids are also living in a world of skepticism about truth and faith We will unpack these faith questions and explore the tensions that exist between older and younger generations Our kids are the future of our churches cities states and country It is critical that we begin to acknowledge that as adults we must be intentional in understanding the culture our kids live in and be humble in our approaches to developing them as faithful servants and successful adults So how do we raise contributors Let's begin to discuss practical ways to raise kids who are image bearers and difference makers I call these kids contributors
