The current neoliberal political economy has turned care into a business opportunity for the healthcare industrial complex and a mechanism of social oppression and control. Nishida analyzes the challenges people negotiate whether they are situated as caregivers/receivers or both. Also illuminated is how people with disabilities come together to assemble community care collectives and bed activism resistance and visions emerging from the space of bed to reimagine care as a key element for social change. The structure of care Nishida writes is deeply embedded in and embodies the cruel social order based on disability race gender migration status and wealth that determines who survives or deteriorates. Simultaneously many marginalized communities treat care as the foundation of activism. Using interviews focus groups and participant observation with care workers and people with disabilities Just Care looks into lives unfolding in the assemblage of Medicaid long term care programs community based care collectives and bed activism. Just Care identifies what care does and asks Are some people's needs more sacred and urgent than others?
