

# Mapping Lab: Oceania and Antarctica

## MAKING A MENTAL MAP

1. Look at the outline map of Oceania and Antarctica on the next page. Then draw and label these features where you think they are located:
  - Australia and New Zealand
  - Antarctica
  - the equator
  - the oceans
  - the areas that you think have the greatest population
  - the areas that you think have the least population
2. Revise this mental map at the end of the Mapping Lab. Follow these steps to analyze your mental map:
  - Use one color to highlight or circle at least three details that were correct or fairly accurate.
  - Use another to highlight or circle at least three details that were inaccurate. Correct those items.
  - Use a third to add at least three new items.
  - At least one item should represent information about physical geography, and at least one should represent information about human geography.

Answers may vary.
