Resources in Education ,1998 **Researching Early Childhood Literacy in the Classroom** Lucy Henning,2019-11-05
This volume demonstrates how the ethnographic approach to research demanded by a Literacy as Social Practice perspective
can generate fresh insights into what happens when young children engage with schooled literacy tasks Researching Early
Childhood Literacy in the Classroom argues that the lived experience of young children encountering formal schooled
literacy curricula should be the foremost consideration in educational reforms intended to improve rates of literacy
acquisition in schools To make this argument the author suspends traditional concerns with learning and progress to
concentrate on practice and meaning in a careful analysis of key classroom incidents The author concludes that such insights
suggest a need for re considering the assumptions upon which educational policy rests This book will be of great interest to
graduate and postgraduate students researchers academics and libraries in the fields of Literacy Studies Teacher Education

Harris,Herman Lee Donovan,Thomas Alexander,1927 This book has been prepared for supervisors and teachers of reading

reading teachers asking for their descriptions of the problems in reading instruction that presented the greatest difficulties

both materials and methods Current Index to Journals in Education ,2000-04 *Test Critiques* ,1984 **The Reading
Teacher** ,1984 Test Critiques Daniel J. Keyser,Richard C. Sweetland,1985 **Handbook of Reading Disability
Research** Anne McGill-Franzen,Richard Allington,2010-09-17 Bringing together a wide range of research on reading
disabilities this comprehensive Handbook extends current discussion and thinking beyond a narrowly defined psychometric
perspective Emphasizing that learning to read proficiently is a long term developmental process involving many interventions
of various kinds all keyed to individual developmental needs it addresses traditional questions What is the nature or causes of
reading disabilities How are reading disabilities assessed How should reading disabilities be remediated To what extent is

remediation possible but from multiple or alternative perspectives Taking incursions into the broader research literature represented by linguistic and anthropological paradigms as well as psychological and educational research the volume is on the front line in exploring the relation of reading disability to learning and language to poverty and prejudice and to instruction and schooling The editors and authors are distinguished scholars with extensive research experience and publication records and numerous honors and awards from professional organizations representing the range of disciplines in the field of reading disabilities Throughout their contributions are contextualized within the framework of educators struggling to develop concrete instructional practices that meet the learning needs of the lowest achieving readers **The Great Debate: Our Schools in Crisis** Cecil Winfield Scott,1959
