*This chapter begins with a vignette entitled "The Rise and Fall of WeWork's CEO." The details of this story are jarring, reflecting the complexity and speed of organizational life. The effects of behavior ring through organizations—felt by workers, managers, groups, teams, and sometimes, by the whole organization. They also highlight several issues of interest to those seeking to understand organizational behavior, including motivation, justice, ethics, structure, culture, personality, and organizationally relevant outcomes, such as turnover, productivity, and survival. Throughout this text, you will learn how organizational challenges often cut across areas like these, so the systematic approach pursued in this text and your course is essential.*
