## OVERVIEW

adidas Real Time represents the state-of-the-art in performance monitoring. The state-of-the-art system gives athletes and coaches powerful, real-time insights that help them achieve and measure peak physical performance and gain an edge in their competition.

Users can view an overall plan, track, set, compare and report on the performance of athletes with our integrated system.

The adidas Real Time System is designed to perform tasks that are necessary and essential, including:

- Provide real-time insights during training
- Track real training impact and form
- Simplify the collection and management of data
- Add flexibility with a highly portable system

# ABOUT THE SYSTEM

© 2014 adidas Group. All rights reserved.

## HOW IT WORKS

adidas Real Time system uses some of the most advanced technologies along with computer vision, open source facial track and machine vision to provide real-time monitoring of athletes in real time.

adidas brings together GPS, heart rate, motion, heat and monitoring, and other technologies along with an understanding of athlete athletes and their training and developmental needs. Its patented algorithms process millions of data points in less than a second, resulting in:

## WHAT IT MEASURES

adidas Real Time was designed to measure athletes in real time and not just their time in simple, intelligent feedback for coaches who need to understand how training is impacting athletes and their performance.
