Governing Social Virtual Reality Joanne E. Gray, Marcus Carter, Ben Egliston, 2024-08-08 In this ground breaking book we navigate the uncharted terrain of social virtual reality VR a technology that while offering unprecedented immersive experiences brings forth significant governance challenges By merging theoretical insights with practical examples the book examines the risks of harm in social VR environments including both content and conduct issues It charts a course for developing inclusive and safe social VR spaces that are respectful of diverse users rights and needs laying out essential principles for policymakers developers and regulators The book is an urgent call to proactively shape the burgeoning field of VR for the betterment of all

Cyber Citizens Heidi Boghosian, 2025-06-24 A grounding exploration of how our online prowess shapes the very essence of democracy The electronic age compels us to confront the delicate balance between the convenience of constant connectivity and the protection of personal privacy security and democracy itself Presented as a two fold concern of digital and civic literacy surveillance and privacy expert Heidi Boghosian argues that our fight to uphold democracy must extend to the online world As smart citizens our best chance of thriving in the digital era lies in taking care of our smart selves as diligently as we maintain our smart devices In the same way that smart devices can disclose private information when not adequately secured our online presence can lead to unintentional data exposure or identity theft That entails a commitment to learning digital literacy and cyber hygiene from the first moment we engage with technology Mastering the fundamentals of civics the rights and responsibilities of citizens rounds out the democratic assignment With AI and machine learning poised to play a transformative role in our 21st century lives we as humans have our own generative learning journey to master Drawing parallels between Americans and their smart devices **Cyber Citizens** sheds light on the delicate balance between connectivity and privacy to uphold a truly democratic society
