The Hidden Psychology of Social Networks: How Brands Create Authentic Engagement by Understanding What Motivates Us Joe Federer, 2020-09-15 From the former Head of Brand Strategy at Reddit comes a proven and thought-provoking approach to the digital economy and how brands can create authentic engagement that is rooted in the fundamental motivations behind human psychology. Leading marketing practitioner and thought leader Joe Federer draws on evolutionary biology, anthropology, neuroanatomy, and psychology as well as more than a decade of hands-on experience to explain why people act so differently in various online spaces and what they are seeking from participating in each one. With a framework based on Freud's Id, Ego, and Superego model of the human psyche, he demonstrates how the internet is a digital reflection of the collective human psyche and how different social networks correspond to different mindsets: platforms like Reddit to the unfiltered Id, Facebook and Twitter to the managed Ego, and Instagram to the ideal Superego. In the same way you behave differently when you're home alone, out with friends, communicating with family, or interacting with coworkers, people act and express themselves differently in these various online spaces. Context matters. Understanding this will enable you to develop and execute effective engagement strategies to reach your target audiences on each social network. Learn how to create

content that drives sharing and word of mouth how brands can fit natively into different types of social channels how to balance branded social presences across different networks why authenticity will only grow in importance to consumers Fascinating and deeply compelling The Hidden Psychology of Social Networks will equip you to make vastly more efficient use of your media buys establish more thoughtful strategies develop better creative and in the end deliver more effective marketing that provides value     *Informationweek* ,2000     **Entertainment on the Net** Joe Williams,1995 Seven million people belong to entertainment related newsgroups on the Internet This book gives these Internet users the latest scoop on the entertainment industry through the Internet covering television movies music politics human interest and celebrity watching A celebrity index with graphics and pictures lets readers easily find information on their favorite celebrity     **The News** ,2003-06     The New Yorker Harold Wallace Ross,William Shawn,Tina Brown,David Remnick,Katharine Sergeant Angell White,Rea Irvin,Roger Angell,1999     **Index de Périodiques Canadiens** ,2002     American Journalism Review ,1997-07     **Adweek** ,2000     **Fortune** Henry Robinson Luce,2004-11
