Teaching Today's Mathematics in the Middle Grades Art

Johnson,Kit Norris,2006 Teaching Today's Mathematics in the Middle Grades provides current and future middle school teachers with the mathematics content essential concepts methodology activities and resources to both learn and teach mathematics in grades 5 to 8 The authors focus exclusively on the middle school learner and the middle school mathematics curriculum Although each chapter discusses foundational mathematics concepts from earlier grades and previews topics that will follow the middle grades the emphasis is on the middle school This selective focus allows for proper development of critical topics in the middle school such as proportionality algebraic thinking and the integral role of manipulatives Assessment practices and problem solving are also emphasized from the viewpoint of effective practices for middle school students Unique Features React and Reflect features prompt classroom discussions by asking the reader to think independently regarding a statement issue or concern Try This features ask the reader to solve a problem first or extend the current discussion by working on an extension of a problem By completing the problem first teachers are putting themselves in the place of their students helping the teacher discover first hand common misconceptions Numerous exercises and activities appear at the end of each chapter to reinforce student understanding of various topics and ensure mastery of the mathematics content The NCTM Principles and Standards are emphasized throughout the book beginning with a discussion in Chapter 1 Each of the content chapters 6 11 opens with the relevant NCTM content standards for that chapter In addition

marginal icons highlight areas within the text in which the NCTM process standards are discussed. Reviewers rave From the content organization and approach it is evident that the authors have years of teaching experience. This gives the text authority. Marina Krause California State University Long Beach. The authors do an excellent job of presenting in sequential order essential concepts methodology activities and technological resources essential to assist the beginning math teacher in preparing to teach in the middle school program. Gerald Jarmon North Carolina Central University

Teaching Essential Mathematics, Grades K-8 Timothy J. McNamara, 2007-12-14

The activities can be used to help students understand the reason for the algorithms. Students should not just learn how but also why. Carrie Chiappetta Math TeacherMagnet Middle School Stamford CT. This is a much needed resource book for both inservice and preservice teachers. Helen Melvin Second Grade TeacherDr Levesque School Elementary School Fort Kent ME. Creative ready to use classroom activities for teaching essential math concepts. Not all educators feel comfortable teaching math yet it is critical for all students to gain a solid foundation of mathematical understanding in grades K 8. Written by a national consultant in mathematics instruction and assessment this resource helps educators gain the confidence they need to teach math in creative and engaging ways. Teaching Essential Mathematics Grades K 8 provides teachers with an overview of the key mathematics concepts students need to acquire and includes hands on activities and clear examples to help students learn these concepts in depth. The classroom ready activities and calculator exercises are organized according to the NCTM content standards and each activity is directly aligned with specific benchmarks. The material also features Suggestions for incorporating cooperative learning into mathematics instruction. A comprehensive glossary of mathematical terms to broaden educators subject knowledge. Reproducible blackline masters that can be used with students immediately. Both new and veteran teachers can leverage this book s many rich examples and student centered learning tasks to re energize their instruction and renew students enthusiasm.
