**The Psychology of Foreign Policy** Christer Puriainen, Tuomas Forsberg, 2021-10-16 This book focuses on foreign policy decision making from the viewpoint of psychology. Psychology is always present in human decision making, constituted by its structural determinants but also playing its own agency level constitutive and causal roles and therefore it should be taken into account in any analysis of foreign policy decisions. The book analyses a wide variety of prominent psychological approaches such as bounded rationality, prospect theory, belief systems, cognitive biases, emotions, personality theories, and trust to the study of foreign policy, identifying their achievements and added value as well as their limitations from a comparative perspective.

Understanding how leaders in world politics act requires us to consider recent advances in neuroscience, psychology, and behavioral economics. As a whole the book aims at better integrating various psychological theories into the study of international relations and foreign policy analysis as partial explanations themselves but also as facets of more comprehensive theories. It also discusses practical lessons that the psychological approaches offer since ignoring psychology can be costly: decision makers need to be able to reflect on their own decision making process as well as the perspectives of the others. Paying attention to the psychological factors in international relations is necessary for better understanding the

microfoundations upon which such agency is based      *Current Politics and Economics of Russia, Eastern and Central Europe* ,1999      **Journal of Russian and East European Psychology** ,2005      **Current Politics and Economics of Russia** ,1997      **Russia and Asia** Gennadii Illarionovich Chufrin,1999 Asia s new prominence in the world arena is likely to reshape the configuration of forces in the international system and Russia s interaction with Asia is poised to become one of the defining elements of world politics at the turn of the century This new book analyses Russia s security issues and the emerging geopolitical balance in Central Asia South West Asia South Asia and Asia Pacific It examines the domestic political background to Russia s foreign and security policy and the importance of Asia in its domestic and foreign policy It complements the volume on Russia and Europe published in 1997      *Transylvanian Review* ,2002      **New Times International** ,1993      *Totalitarianism and the Challenge of Democracy* Andrzej Jabłoński,Wojciech Piasecki,1992      **Regional Peacekeepers** John Mackinlay,Peter Cross,2003 Despite the disintegration of the Soviet Union during the 1990s Russia has continued to maintain its longstanding obligations and strategic interests in former Soviet territories This publication examines Russia s military interventions in regional conflicts to determine whether its role has been genuinely peacekeeping or more a post imperial presence that seeks to maintain former strategic interests It includes first hand accounts of the CIS peacekeeping efforts in South Ossetia Abkhazia Moldova and Tajikistan as well as contemporary assessments of Russian peacekeeping efforts alongside NATO forces as well as in Chechnya      **The Rise of the Russian Democrats** Judith Devlin,1995 Studying the democratic revolution from its grassroots Judith Devlin focuses on how a civil society emerged in Moscow and Leningrad through the development of political clubs and associations      **Social Sciences** ,2008      **New Russia** ,1994 A monthly magazine on public affairs literature and art      Daily Report ,1994      **The Library Catalogs of the Hoover Institution on War, Revolution, and Peace, Stanford University: Catalogs of the Turkish and Persian Collections** Hoover Institution on War, Revolution, and Peace,1969      **Russia** Great Britain: Parliament: House of Commons: Defence Committee,2009-07-10 With Russia s increasingly assertive foreign policy the Committee decided on an inquiry encapsulating the uncertain relations between the West and Russia The Russian State is a major player on the world stage It exerts significant influence over international and European affairs that affect UK security and interests Russia does this not only through its still significant military capability but also through a range of other levers such as the use of energy as a foreign policy tool Russia does not currently pose a direct threat to UK homeland security nor is likely to do so in the near future But it is understandable that some of Russia s neighbouring states should feel concerned about the possibility of Russian military action against them given Russia s actions in Georgia Consequentially NATO has an important role in reassuring its Eastern European members about their security The military actions by Russia and Georgia were unacceptable The Government should send a strong message to Russia that it needs to withdraw its military forces from Georgian territory to its pre conflict positions NATO s relations with Russia are critical as there are many shared global

challenges that are best addressed jointly such as tackling terrorism nuclear non proliferation and climate change The Committee welcomes the resumption of formal engagement between NATO and Russia on the NATO Russia Council but there needs to be honest dialogue on areas of disagreement as well as agreement The Government should encourage the Council to be used as a forum to discuss difficult strategic issues as well as areas where cooperation is easier Relations between Russia and the West are complex and characterised by mutual dependency Russia needs the goodwill of the international community to maintain its strong international trading links The West needs Russia s cooperation to tackle many shared global challenges However cooperation should not come at the price of accepting the legitimacy of a Russian sphere of influence though it has valid interests in the countries that surround it undue influence would risk compromising the sovereignty of these states This would be against the UK s national interests as European security is enhanced by having stable democratic and independent states across Europe The Government should adopt a hardheaded approach to engagement with Russia based on the reality of Russia s foreign policy rather than abstract and misleading notions of shared values *National Union Catalog* ,1968 Includes entries for maps and atlases *Russia Transformed* Dmitrii Mikheev,1996 Russia Transformed dispels many misunderstandings and misconceptions about the new Russia documenting the new Russian elite s struggles to create an entirely new economy and political system while dealing with wrenching changes in social conditions such as inflation crime alcoholism political corruption and poverty
