Standards & Objectives

Addressed in Sound Energy

Overarching Question: How does sound energy travel?

Standard Addressed:

- 4-PS3-2 Make observations to provide evidence that energy can travel from place to place by sound, light, heat, and electric currents.

Objectives:

Objectives 1

- To make observations and provide evidence that a sound is a wave that travels in all directions.

Objectives 2

- To make observations and provide evidence that sound travels in waves that are longitudinal.

Objectives 3

- To make observations and provide evidence that sound travels in waves that are longitudinal.

Objectives 4

- To make observations and find evidence that when sound waves are longer, and the sound produced has a lower frequency.

Objectives 5

- To make observations and find evidence that dense materials can absorb sound waves better than bumpy and/or rough surfaces.

Objectives 6

- To make observations and find evidence that sound travels best through liquids, and worst through gases.

Pacing Guide

*Suggested Order of Instruction - Energy
9-11 weeks*

In the first few weeks, students engage and explore four types of energy activities. These activity-based units can be taught in any order.

**Sound
5-6 days**

Students explore sound energy in the framework stations.

1. What is sound?
2. How does sound travel?
3. What is amplitude?
4. What is pitch?
5. Which materials conduct and insulate sound?

Does sound travel better through solids, liquids, or gases?

**Light
5-6 days**

Students explore light energy in air framework stations.

1. How does light travel?
2. Which materials are transparent, translucent, and opaque?
3. Which materials reflect light?
4. What is refraction?
5. What is color?

Light Reading**Heat
6-7 days**

Students work in small groups to complete light hands-on activities.

1. What is heat?
2. How does heat travel?
3. What is conduction?
4. What is convection?
5. What is radiation?
6. What materials insulate and conduct heat?

What materials insulate and conduct heat?

How does heat change matter?

How do we measure heat?

Planning Science Instruction for Emergent Bilinguals Edward G. Lyon, Kelly M. Mackura, 2023 This practical resource takes educators through a planning process from selecting standards to designing learning activities that weaves together language literacy and science in ways that are responsive to emergent bilinguals. Drawing on extensive and current research the authors show how secondary educators can use students' own language and lived experiences coupled with authentic science practices to provide rich and relevant language support. Using a science unit as a shared text readers will learn how to gather rich knowledge about emergent bilinguals, unpack the ideas and language demands of Next Generation Science Standards, strategically embed language and literacy standards in the curriculum and sequence learning activities around an anchoring phenomenon, a text and an assessment. In the process readers will come away with a repertoire of planning tools and examples of how to support emergent bilinguals in using language to collaborate with others and to interpret and produce texts that are central to learning and doing science. Planning Science Instruction for Emergent Bilinguals blends theory and practice so readers understand both how and why this planning process can be used to disrupt social inequity for emergent bilinguals. Book Features: Describes intentional decisions that educators can make when planning a science unit or learning experience; Shows how to weave together Next Generation Science Standards, Common Core English Language Arts Standards and language development; Provides a model unit about kelp forest ecosystems to illustrate how theory is translated into practice; Demonstrates how to use emergent bilinguals' assets, linguistic skills, family experiences, personal interests to create engaging science instruction; Provides a set of planning tools including both blank templates and completed examples to guide educators through the planning process.

Science Education and Culturally Sustaining Pedagogies: Research, Practices, and Critical Reflections Silva Pimentel, Diane Terrell, Karen L., 2025-07-02 Science education continually changes to meet the needs of students from different backgrounds. Culturally sustaining pedagogies CSP offer avenues towards inclusive science teaching by valuing cultures, languages and student experiences. CSP encourages teachers to connect lessons to students' lives and communities, integrating diverse learning experiences for various student skills. Further research into science education may empower underserved students and educational leaders to enhance learning methods, skill development and pedagogical practices. Science Education and Culturally Sustaining Pedagogies: Research, Practices, and Critical Reflections explores how culture, language and identity influence science education. It examines teaching strategies that value and sustain diverse learning practices. This book covers topics such as STEM education, sustainable development and teacher education, and is a useful resource for educators, sociologists, academicians, researchers and scientists.

STEAM Education Myint Swe Khine, Shaljan Areepattamannil, 2019-01-30 This book looks at the value of integrating the arts and sciences in the school curriculum. Physical Science Sequence Science Curriculum Improvement Study, 1970 *Physical Sciences for NGSS - Teacher's Edition* Benjamin J. Westleigh, Tracey Greenwood, Kent Pryor, Lissa Bainbridge-Smith, 2020-09-14 The Teacher's Edition is identical to the student edition but with additional teacher only features including Model Answers in place, Embedded 3 dimensional coding, Identification of performance expectations and Common Core State Standards in situ and in alignment tables, Pedagogical guidance and assistance with approach, pacing and use in differentiated classroom, Extra material for extending gifted and talented students *Biology for NGSS (3rd Ed) - Teacher's Edition* Jill Mellanby, Lissa Bainbridge-Smith, Kent Pryor, 2022-07-15 The Teacher's Edition of the Biology for NGSS textbook is an invaluable resource for teachers who are looking to implement the Next Generation Science Standards NGSS framework effectively in the classroom. This edition is identical to the student edition but with additional teacher only features that help teachers to deliver the curriculum in a differentiated and engaging way. One of the key features of the Teacher's Edition is the inclusion of model answers which provide teachers with a clear understanding of how students are expected to answer questions and complete activities. In addition, the Classroom Guide is also included providing pedagogical guidance and assistance with approach, pacing and use in a differentiated classroom. The Teacher's Edition also features a full mapping of the 3 dimensions of NGSS ensuring that teachers have a comprehensive understanding of how the curriculum is structured and how it aligns with the NGSS framework. The guide provides a range of teaching strategies using the BIOZONE solution including scaffolded learning using the 5Es instructional model as the basis for the sequencing of activities using collaborative learning in a differentiated classroom and strategies for ELD/ELA. To further support teaching and learning, the Teacher's Edition includes strategies for extending gifted and talented students, promoting inquiry using practical investigations, assigning activities for homework, self study and formative and summative assessment including specifically identified performance expectations. The edition also addresses the Common Core State Standards for math and literacy ensuring that students have the skills they need to succeed in a wide range of academic disciplines. In addition, the Teacher's Edition provides embedded 3 dimensional coding, identification of performance expectations and Common Core State Standards in situ and in alignment tables, and extra material for extending gifted and talented students. Finally, the edition features a long answer section providing teachers with additional resources to use in the classroom. Overall, the Teacher's Edition of the Biology for NGSS textbook is an essential resource for any teacher looking to implement the NGSS framework effectively and engage students in the learning process Science Anytime Harcourt School Publishers Staff, 1995-01-01 **Science in Action**, 1998
