Transformation 15 Evolving CDAO and AI Decision Culture 16 Communicating AI Value to Executives 17 Scaling AI Initiatives and Managing Change 18 AI Governance and Ownership Bibliography *Conspiracy Theories in International Relations* Katarzyna Gruszko, Tomasz Gajewski, 2026-01-22 The book maps the impact of conspiracy theories at the international political level. It shows how a conspiracy theory travels from the sender through communication channels to the receiver, influencing the processes of construction and deconstruction of the interpretation of the surrounding reality. It therefore serves as an instrument of information warfare to create international advantage, generate profits or achieve ideological goals. The book presents academic reflection on a socially important problem: conspiracy theories, their patterns of dissemination and their impact on identity formation. This book is of key interest to scholars and students of conspiracy theories, global governance, global security, international studies, relations and social psychology. *Agentic AI* Ken Huang, 2025-07-11 This book analyzes the rise and transformative impact of generative AI agents or Agentic AI across industries, offering a comprehensive exploration of their development, applications and implications. It highlights how these systems are revolutionizing business processes, enhancing decision making and reshaping entire sectors from finance to healthcare. It traces the evolution of AI agents from early programs to today's sophisticated autonomous systems, providing a taxonomy of agent types. It then explores cutting-edge tools and frameworks for development, such as AutoGen Langgraph and CrewAI, offering practical insights for their deployment. Key focus areas include evaluating multiagent systems and coordination techniques, addressing challenges in communication and conflict resolution. The book presents case studies from banking, insurance, healthcare and cybersecurity, showcasing how autonomous agents are automating tasks and driving innovation. In turn, the book provides in-depth analyses of Agentic AI in emerging fields like gene editing, robotics and business process automation, demonstrating its potential to accelerate scientific research and value creation. The discussion extends to economic ramifications, examining impacts on macroeconomic trends, microeconomic dynamics within businesses and the emergence of decentralized token-based economies. Throughout, thought-provoking questions encourage readers to consider the broader implications of these technological advances. The work concludes with a critical examination of related safety and security considerations, emphasizing the need for proactive measures. Maintaining a forward-looking perspective, it prompts readers to consider how these technologies might reshape industries and society, raising important questions about the changing nature of work, ethical aspects and equitable distribution of benefits. Bridging theoretical foundations and practical applications, the book offers valuable insights for data scientists, IT managers, CIOs, CAIOs, CTOs, business analysts and graduate students seeking to understand and apply AI's transformative potential across various industries. □

Teaching Soccer IQ: Coach's Blueprint Etienne Noumen, The Intelligent Player A Coach's Comprehensive Guide to Defining Teaching and Mastering Soccer IQ by Etienne Noumen explores the concept of Soccer IQ as a crucial element distinguishing elite players. It breaks down game intelligence into five core pillars: tactical awareness, game vision, decision making,

anticipation and positional understanding arguing that cognitive ability often surpasses raw athleticism. The guide then introduces the Dan Blank Method emphasizing the importance of speed of play and offering practical habits for intelligent players such as the one touch mindset and 3 step rule for off the ball movement. Furthermore it provides coaches with a toolkit including small sided games Socratic questioning and video analysis alongside a progressive drill library to implement these principles culminating in a tactical intervention plan for common youth soccer challenges **Esports and the World Anti-Doping Code** Lovely Dasgupta, 2025-12-01 This is the first book to focus on the topic of doping in esports. As the global esports industry continues to grow this book critiques current anti doping practices and considers the role that the World Anti Doping Agency and the International Olympic Committee might play in creating a sustainable anti doping scheme. Drawing on new research this book maps the instances of doping within esports and considers the differences between esports and traditional sports including the multiplicity of organisations from federations to game publishers that make up the complex governance structure of the esports industry. It argues that the WADA Code and well established anti doping mechanisms proven in traditional Olympic sports can provide a blueprint for improving anti doping efforts within esports and strengthen the efficacy and legitimacy of esports governing bodies. This is a fascinating reading for anybody with an interest in esports video games sports and entertainment law sport policy sport management or the ethics of sport **Traduction**

**transmédia** Brigitte Gauthier, 2026-01-13 Le monde professionnel de la traduction se décline aujourd'hui sur une multitude de supports : romans, romans graphiques, films, séries, jeux vidéo. L'adaptateur doit être à une grande agilité linguistique et technique. Traduction Transmédia propose un étalonnage des expériences de professionnels de la traduction et des médias afin de prendre conscience des conséquences de la révolution Transmédia sur le travail des traducteurs. Traduire n'cessite d'apprendre des univers numériques variés qui ont chacun leurs contraintes. Cet ouvrage présente un large ventail de points de vue d'universitaires et de professionnels de la traduction audiovisuelle du monde entier. Il est temps de se demander comment former des jeunes à la traduction aujourd'hui alors que les compétences initiales immersion dans la culture, mémorisation de pages de dictionnaires et agilité naturelle leur semblent ne plus être indispensables. Le traducteur doit-il se contenter désormais d'un rôle de post-diteur et apprendre à dompter la machine comme lorsque l'on se confronte à un rival de jeu à chec? Nous verrons
