Republic of Estonia

International Monetary Fund. European Dept.,2023-07-28 Estonia has made remarkable progress over the past two decades achieving steady convergence towards more advanced EU economies However signs of erosion in external performance have emerged in recent years reflecting rapid growth in unit labor cost and real exchange

rate appreciation Russia's invasion of Ukraine triggered a large rise in inflation supply chain disruptions and slower growth in key trading partners in the Baltic region. In Estonia these developments combined with fiscal tightening in 2022 have led to a sharp economic downturn while deceleration in productivity has exacerbated competitiveness erosion. **OECD Economic Surveys: France 2024** OECD, 2024-07-10 France has faced two significant successive shocks: the COVID-19 pandemic and the increase in inflation. Emergency government measures were decisive in protecting business, jobs, and purchasing power but at a high fiscal cost. Efforts to reduce public spending will be key to lower government debt. Lifting productivity growth hinges on a wider diffusion of digital technologies, reduced regulatory barriers, and stronger innovation.
