MTA Microsoft Technology Associate Exam 98-365 Windows Server Administration Fundamentals Exam**FOCUS Study Notes and Review Questions 2015 Edition** Exam*review*,2015-02-09 In the early days of certification study preparation the focus was almost exclusively on cramming We had a new medium for content that didn t come with the same restrictions as the more traditional forms We could present material as we felt was necessary and we could do it quicker As the certification industry grew so did the approach to gaining readership In many cases publishers had their focus shifted away from ultimate understanding of what was being covered to producing word for word

exact match contents significantly motivated by increasing revenue While it s definitely easier to produce content by going that route we don t believe it s the only way to conquer an exam At the same time we don t believe readers need the 500 page megatext As long as there s a balance we are happy Our mission at ExamREVIEW is to be a part of that balance Our No Frills ExamFOCUS study notes are written to be plain simple and straight forward We don t paginate material to increase page count we break them apart across logical boundaries to improve readability All fancy extra features are removed We provide study notes that are concise and occupying less pages so to save trees And we want you to be up and ready as easy as possible We are the original developer of our NO FRILLS Exam prep products Contents are developed entirely in house basing on our own research efforts We believe that with the right preparation material and the right study approach everyone can clear exams ethically Many of our products include practice review questions Think of these as challenges presented to you so to assess your comprehension of the subject matters      *Exam 98-364 MTA Database Administration Fundamentals* Microsoft Official Academic Course,2011-07-12 Students who are beginning studies in technology need a strong foundation in the basics before moving on to more advanced technology courses and certification programs The Microsoft Technology Associate MTA is a new and innovative certification track designed to provide a pathway for future success in technology courses and careers The MTA program curriculum helps instructors teach and validate fundamental technology knowledge and provides students with a foundation for their careers as well as the confidence they need to succeed in advanced studies Through the use of MOAC MTA titles you can help ensure your students future success in and out of the classroom Database Administration Fundamentals covers introductory knowledge and skills including relational databases core database concepts relational database concepts security requirements for databases and the data stored in them database objects such as tables and views graphical tools and T SQL scripts database queries and stored procedures
