

MUBEA HPSN 450 + 600

The HPSN 450 and 600 with hydraulic drive are fabricating machines for processing of all structural shapes. MUHR UND BENDER designed this model especially for fabricators who need a reasonably priced machine that can be relied upon to operate for many years, economically and at high production. Therefore, the requirements to be met regarding the

design and manufacture of the HPSN Model were above average. Electrical foot engagement as well as infinite stroke adjustment and jogging are standard attachments of this model. More than sixty years of experience in the manufacture of shears and punches were the basis for this modern design.
