Diversity and Citizenship Education James A. Banks, 2006-12-22 The increasing ethnic, racial, cultural, religious and language diversity in nations throughout the world is forcing educators and policymakers to rethink existing notions of citizenship and nationality. To experience cultural democracy and freedom, a nation must be unified around a set of democratic values such as justice and equality that balance unity and diversity and protect the rights of diverse groups.

Diversity and Citizenship Education Global Perspectives brings together in one comprehensive volume a group of international experts on the topic of diversity and citizenship education. These experts discuss and identify the shared issues and possibilities that exist when educating for national unity and cultural diversity. Diversity and Citizenship Education Global Perspectives presents compelling case studies and examples of successful programs and practices from twelve nations. It discusses problems that arise when societies are highly stratified along race, cultural, and class lines and describes guidelines and benchmarks that practicing educators can use to structure citizenship education programs that balance unity and diversity. The book covers a broad range of issues and includes vital information on such topics as Migration, citizenship, and education. The challenge of racialized citizenship in the United States. The contribution of the struggles by Indians and Blacks for citizenship and recognition in Brazil. Crises of citizenship education and ethnic issues in Germany, Russia, and South Africa. Conflicts between religious and ethnic factions. Diversity, globalization, and democratic education.

Evolving Multicultural Education for Global Classrooms Gordon, Richard Keith, Ahmed, Kawser, Hosoda, Miwako, 2021-06-18. Multicultural education is a construct that has been very useful for many years in harboring sensitivities teachers need in addressing diverse students. Now the discipline needs refreshing. In the global society the idea of multicultural education, a decidedly Western formation, needs to expand its conceptual boundaries. Salient issues in multicultural education such as individual identities, social justice, and equity are bedrock concerns of multicultural educators. These concepts are considered necessary but not sufficient in shaping an evolving model of multicultural education. The complexity of humans and modern and emerging societies requires a broadened scope of the understanding of contemporary multicultural theory and practice. Evolving Multicultural Education for Global Classrooms addresses multicultural education from a comprehensive viewpoint that acknowledges the historical benefit of multicultural education and recognizes a need to inform the discipline with a broader viewpoint. As most knowledge on multicultural education comes from a Western perspective and the scholarship on the topic is weakening, the chapters in this book present new practices and classroom applications that are internationally transferable. Topics covered include teacher education, social justice, educational equity, and inclusion, online education, and cultural sensitivities. This book is ideally intended for teachers, educational theorists, sociologists of education, inservice and preservice teachers, administrators, teacher educators, practitioners, researchers, academicians, and students interested in a fresh global perspective on multicultural education.
