**Behaviors in the Post-Pandemic World** Iina Savolainen,Nicholas Kerry ,Anu Sirola,2024-11-15 Gambling and gaming are popular past time activities that involve social elements The built in social features of online games and gambling platforms offer users valuable social interactions and can function as protective factors against gambling and gaming harms However being socially motivated to gamble or stay within online games might lead to spending excessive time gaming or gambling often at the expense of other important routines and daily activities Together these factors might lead to gambling and gaming related problems and long term individual and public health harms Problem gambling is typically associated with other harmful behaviors including alcohol use and cigarette smoking while online gaming disorder has been associated with poor diet and sleep quality Since its beginning in the early 2020 the COVID 19 pandemic has challenged people's everyday lives wellbeing and social interactions Especially during the early stages of the pandemic many quarantined at home and stayed socially isolated from others At that time the World Health Organization together with various gaming companies launched the PlayApartTogether initiative to promote well being and encourage people to stay socially connected through virtual play Going into the third year of the pandemic people are still adjusting to and living in the so called new normal where many social conventions have changed This inevitably influences people's health related and addictive behaviors and choices

**MEDINFO 2019: Health and Wellbeing e-Networks for All** Lucila Ohno-Machado,2019-11-15 Combining and

integrating cross institutional data remains a challenge for both researchers and those involved in patient care. Patient generated data can contribute precious information to healthcare professionals by enabling monitoring under normal life conditions and also helping patients play a more active role in their own care. This book presents the proceedings of MEDINFO 2019 the 17th World Congress on Medical and Health Informatics held in Lyon France from 25 to 30 August 2019. The theme of this year's conference was Health and Wellbeing E Networks for All stressing the increasing importance of networks in healthcare on the one hand and the patient centered perspective on the other. Over 1100 manuscripts were submitted to the conference and after a thorough review process by at least three reviewers and assessment by a scientific program committee member 285 papers and 296 posters were accepted together with 47 podium abstracts 7 demonstrations 45 panels 21 workshops and 9 tutorials. All accepted paper and poster contributions are included in these proceedings. The papers are grouped under four thematic tracks interpreting health and biomedical data supporting care delivery enabling precision medicine and public health and the human element in medical informatics. The posters are divided into the same four groups. The book presents an overview of state of the art informatics projects from multiple regions of the world it will be of interest to anyone working in the field of medical informatics.
