Wheeler,2018-03-09 How can two states with enemy relations transform their relationship Nicholas Wheeler argues that the discipline of International Relations has not done a good job of answering this question because its focus has been on the state and the individual levels of analysis In this ground breaking book he argues for the importance of a new level of analysis in trust research the interpersonal relationships between state leaders In doing so he makes two key contributions Firstly developing a new theory of interpersonal trust that can be applied to the international level and secondly showing how this theory contributes to the literature on signalling in IR The theory of interpersonal trust developed in the book provides a novel response to the central problem identified by signalling theory in IR whether the receivers of signals interpret them in the way intended by their senders The author argues that in fact trust between two leaders is causally prior to the accurate interpretation of the signals they send with the aim of communicating peaceful intent Trust therefore does away with the problem of the ambiguity of signal interpretation He goes on to examine exactly how a new relationship of trust emerges between two leaders who represent states with enemy relations through face to face interaction and the crucial process of bonding between them that this makes possible This powerful new theory of interpersonal trust is applied to three cases the personal interactions between US and Soviet leaders Ronald Reagan and Mikhail Gorbachev in ending the Cold War the face to face interactions between Indian Prime Minister Atal Bihari Vajpayee and Pakistani Prime Minister Nawaz Sharif in reducing conflict between India and Pakistan in 1998 1999 and the interactions in 2009 10 between Barack Obama and Ayatollah Ali Khamenei that failed to achieve a breakthrough in US Iran nuclear relations Time Briton Hadden, Henry R.

Luce,2010-04 **Iran's Foreign Policy in the Post-Soviet Era** Shireen T. Hunter,2010-05-20 A comprehensive exploration of postrevolution Iranian foreign policy analyzes the country's relations with key nations and regions and the impact of both Iran's domestic situation and the developing global system Iran's Foreign Policy in the Post Soviet Era Resisting the New International Order provides the first truly comprehensive in depth survey of Iranian foreign policy issue by issue and country by country since the Islamic Revolution To help readers understand both the what and the why of Iran's role in the world and formulate useful responses to that role the author provides a detailed analysis of Iranian foreign policy

in all its dimensions The first part of the book places Iranian actions particularly its relations with the United States and other key players within the context of the emerging international system while also showing how domestic developments impact foreign policy The second part surveys Iranian relations with specific actors notably the United States and Russia and with key regions including Europe Central Asia the Arab world Latin America and Africa Providing an antidote to existing preconceptions this incisive analysis lays an analytically sound basis for shaping policies toward Iran policies with potentially high payoff in terms of regional security and stability *The Intellectual Activist* ,2005 *The New York Times Index* ,2009
