Captive City Jennie Lightweis-Goff, 2024-12-10 Explores the legacies of slavery in Southern cities along the Gulf and Atlantic coasts Cities are fraught sites in the national imagination turned into identity markers when urban and rural indicate tastes rather than places Cities bring chaos draining the lifeblood of the nation like a tick draws blood from its host to paraphrase Thomas Jefferson's anti urban polemics which might have been written during any election year centuries or months ago Racism and anti urbanism were born conjoined during the Revolution Like their Atlantic coastal counterparts in the US North Southern cities similarly polyglot and cosmopolitan resist the dominant mutually inclusive prejudices of the nation that fails to contain them on its eroding flooding coasts *Captive City* explores the paths of slavery in coastal cities arguing that captivity haunts the hospitality cultures of Charleston New Orleans Savannah and Baltimore It is not a history of urban slavery but a literary reflection that argues for coastal cities as a distinct region that scrambles time resisting the post in postindustrial and the neo in neoliberalism Jennie Lightweis Goff offers a cultural exploration bound by American literature especially life writing by the enslaved as well as compelling reassessments of works by canonical writers such as Frederick Douglass Harriet Jacobs and Hector St John de Crevecoeur Lightweis Goff reveals how the preserved yet fragile landscapes of these cities are haunted not simply by the ghost tours that are signature stops for travelers in their historic districts but by the echoes of slavery in their economies and built environments Object Lessons Robyn Wiegman, 2012-01-11 A passionate advocate of identity studies and a keen reader of U S institutional politics Robyn Wiegman turns her attention in *Object Lessons* to the critical practices and political ambitions of identity based fields In a series of case studies drawn from womens studies queer studies ethnic studies and American studies she examines the unspoken belief that better theory will produce progressive social change in order to consider the political desire that fuels current scholarly debate Her metacritical analysis is neither a defense nor a dismissal of such political commitment but a sustained inquiry into the hope it generates the thinking it inspires and the conformity it inadvertently demands *Queer Pleasure Without Apology* Greg Goldberg, 2025-06-01 Approaches stigmatized sex with candor and curiosity interweaving experience and analysis to better appreciate the intricacies and intrigue of queer desires and pleasures Queer theorists have long defended stigmatized sexual desires and behaviors by demonstrating how they are either fundamentally harmless or have some higher political psychological or social value While such defenses may be useful in combatting homophobia the mandate that sex be either benign or virtuous has impeded our ability to apprehend the nuance and variety of the things that turn us on and get us off *Queer Pleasure Without Apology* refuses this mandate approaching stigmatized sex with curiosity rather than judgment Greg Goldberg examines his own bad desires and behaviors from anonymous sex to fetishization to playing games to show how critics keep getting them wrong Heady and humorous *Queer Pleasure Without Apology* challenges us to think about sex in a way that is as playful and perplexing as sex itself **Terrorist Assemblages** Jasbir K.
