## **Objective Iti Questions With Answers Electrical:**

**Electrician First Year MCQ** Manoj Dole, Electrician First Year MCQ is a simple Book for ITI Engineering Course Electrician First Year NSQF Syllabus It contains objective questions with underlined bold correct answers MCQ covering all topics including all about safety and environment use of fire extinguishers artificial respiratory resuscitation to begin with He gets the idea of trade tools its standardization identifies different types of conductors cables their skinning joint making Basic electrical laws like Kirchhoff s law ohm s law laws of resistances and their application in different combinations of electrical circuit are practiced along with laws of magnetism The trainee practices on circuit for single phase and poly phase circuits for 3 wire 4 wire balanced unbalanced loads Skilling practice on different types combination of cells for operation and maintenance is being done Wiring practice with installation of different accessories like ICDP switch distribution fuse box and mounting energy meters are practiced as per IE rules for hostel residential building workshop and its fault detection are done by trainee The trainee will practice for pipe plate earthing Different types of light fitting are to be done like HP LP mercury vapour and sodium vapour are prominent The trainee will practice on different types of measuring instruments like multimeter wattmeter energy meter phase sequences meter frequency meter for measurement of electrical parameters in single three phase circuits He will gain skill on range extension calibration and testing of meters Practice for dismantling assembling and testing of heating element equipment induction heating equipment grinding machines and washing machines will be done by trainee Skill will be gained on transformer for operation efficiency series parallel operation replacement of transformer oil and combination of single phase transformers for 3 phase operation The trainee will practice on winding of small transformer and lots more

**Electrician Second Year MCQ** Manoj Dole, Electrician Second Year MCQ is a simple Book for ITI Engineering Course Electrician Second Year NSQ F Syllabus It contains objective questions with underlined bold correct answers MCQ covering all topics including all about electrical rotating machines viz DC machines induction motors alternators MG sets and practice on them The trainee will practice on determining characteristics their performance analysis starting speed control and reversing direction of rotation of machines He will practice on parallel operation synchronization of alternators winding practice and over hauling will be practiced for DC machine and induction motors diodes for bridge rectifier switching devices amplifiers by electronic components different wave shape generation and testing by CRO Designing control cabinet assembling control elements and their wiring are to be practiced Speed control of AC DC motors by electronic controller will be practiced The trainee will practice on testing analyzing and repairing of voltage stabilizer emergency light battery charger UPS and inverter He will gain knowledge of thermal hydel solar wind energy systems distribution system domestic service line and accessories their protection by practicing on relay and circuit breaker and lots more

**Wireman First Year MCQ** Manoj Dole, Wireman First Year MCQ is a simple Book for ITI Engineering Course Wireman First Year NSQF Syllabus It contains objective questions with underlined bold correct answers MCQ covering all

topics including all about safety and environment use of fire extinguishers artificial respiratory resuscitation to begin with He gets the idea of planning preparing good quality electrical wire joints for single and multi stand conductors suitable for applications with soldering and taking suitable care and safety The trainee will be able to draw and set up DC and AC circuits including R L C circuits with accurate measurement of voltage current resistance power power factor and energy using ammeter voltmeter ohm meter watt meter energy meter power factor meter and phase sequence tester with proper care and safety plan draw estimate material wire up and test different type of domestic wiring circuits as per Indian Electricity rules and taking care of quality Construction and working of MCB ELCB Test a domestic wiring installation using Megger The trainee will identify the type of batteries construction working and application of Ni cadmium lithium cell lead acid cell etc Demonstrate their charging and discharging choosing appropriate method and carryout the installation and routine maintenance with due care and safety He will plan select to carry out basic jobs of marking out the components for filing drilling and riveting fitting and assembled using different components independently plan and install Pipe Plate earthing Measure earth resistance by earth tester select and perform electrical electronic measurements with appropriate instrument He should plan and execute electrical illumination system viz FL tube HPMV lamp HPSV lamp Halogen metal halide lamp CFL LED lamp etc plan draw estimate material wire up and test different type of industrial wiring circuits as per Indian Electricity rules and taking care of quality He will be able to plan draw estimate material wire up and test different type of commercial and computer networking wiring circuits as per Indian Electricity rules and taking care of quality and lots more

*Electroplater First Year MCQ* Manoj Dole, Electroplater First Year MCQ is a simple Book for ITI Engineering Course Electroplater First Year Revised NSQF Syllabus It contains objective questions with underlined bold correct answers MCQ covering all topics including all about the latest Important about safety and environment use of fire extinguishers and various safety measures involved in the industry He gets the idea of trade tools machineries practices on filing hack sawing planning drilling marking cutting and chipping etc Identifies different types of conductors cables prepare wire joints and learns crimping and soldering Knowledge of basic electrical laws like Kirchhoff's law ohm's law laws of resistances and their applications The trainee learns installation testing and maintenance of batteries and wiring of panels The trainee gets the idea of basic process of electroplating The trainee learns to handle different solutions treatment of hazardous chemicals safety precautions in electroplating shop first aid and antidotes for chemical poisoning Preparation of articles before plating different types of cleaning like polishing buffering blasting electro cleaning ultrasonic cleaning and vapour degreasing etc Skilling practice on Nickel and Bright Hard Chromium plating by different methods various defects generally encountered in plating causes for these defects their remedies and various methods to remove defective deposits And lots more *Wireman Second Year MCQ* Manoj Dole, Wireman Second Year MCQ is a simple Book for ITI Engineering Course Wireman Second Year NSQF Syllabus It contains objective questions with underlined bold correct answers MCQ covering all topics including

all about to construct and test Half wave full wave and bridge rectifiers with filter without filter He will be able to identify the constructional features working principles of DC machine Starting with suitable starter running forward and reverse operation and speed control of DC motors Conduct the load performance test of DC machine with due care and safety Maintain and troubleshoot of DC machines He will recognise the constructional features working principles of single phase and 3 phase AC motors Starting with suitable starter running forward and reverse operation and speed control of AC motors with due care and safety He should be able to identify the constructional features working principles of Alternator set Test Wire up and run alternator Synchronization of Alternator with due care and safety identify the types constructional features working principles of transformer single three phase Connect and test Transformer He should be able to prepare single line diagram and layout plan of electrical transmission distribution systems and power plants with knowledge of principle applied Make and test power connection to substation equipments with care and safety He will select assemble test and wire up control panel plan estimate and costing of different types of wiring system as per Indian Electricity rule and lots more

**Electronics Mechanic First Year MCQ** Manoj Dole, Electronics Mechanic First Year MCQ is a simple Book for ITI Engineering Course Electronics Mechanic First Year Revised NSQF Syllabus It contains objective questions with underlined bold correct answers MCQ covering all topics including all about the latest Important about safety and environment use of fire extinguishers artificial respiratory resuscitation to begin with He gets the idea of trade tools its standardization Familiarize with basics of electricity test the cable and measure the electrical parameter Skilling practice on different types combination of cells for operation and maintenance of batteries being done Identify and test passive and active electronic components Construct and test unregulated and regulated power supplies Practice soldering and de soldering of various types of electrical and electronic components on through hole PCBs Assemble a computer system install OS Practice with MS office Use the internet browse create mail IDs download desired data from internet using search engines construct and test amplifier oscillator and wave shaping circuits Testing of power electronic components Construct and test power control circuits Identify and test opto electronic devices Able to achieve the skill on SMD Soldering and De soldering of discrete SMD components Verifying the truth tables of various digital ICs by referring Data book Practice circuit simulation software to simulate and test various circuits Identify various types of LEDs LED displays and interface them to a digital counter and test Construct and test various circuits using linear ICs 741 555 and lots more

**Draughtsman Civil First Year MCQ** Manoj Dole, Draughtsman Civil First Year MCQ is a simple e Book for ITI Engineering Course Draughtsman Civil Revised NSQF Syllabus Draughtsman Civil It contains objective questions with underlined bold correct answers MCQ covering all topics including all about the latest Important about basic drawing consisting geometrical figure symbols representations Later the drawing skills imparted are drawing of different scales projections drawing of shoring scaffolding stone and brick masonry foundation damp proofing arches lintel etc and observation of all safety aspects is mandatory The safety aspects covers

components like OSH E PPE Fire extinguisher First Aid and in addition 5S being taught Different site survey using Chain tape Prismatic compass Plane table Levelling instrument Theodolite field book entry plotting mapping calculation of area Drawing of carpentry joints and Electrical wiring drawing of floors slabs vertical movements viz stair lift well ramp and escalator drawing of different types of roof truss are being taught in the practical and lots more Refrigeration and Air Condition Technician First Year MCQ Manoj Dole, Refrigeration and Air Condition Technician First Year MCQ is a simple e Book for ITI Course Revised NSQF Syllabus It contains objective questions with underlined bold correct answers MCQ covering all topics including all about the latest Important about safety precautions marking sawing filing drilling reaming taping and dieing etc Produce Sheet metal components Identify electrical safety Join different wire measure power currents volts and earth resistance etc Connect single phase 3 phase motors i e star and delta connections Identify the electronic components and their colour code i e transistor capacitor diode amplifier I C and able to work soldering Perform gas welding brazing soldering observing related safety Identify RAC tools and equipment and recognize different parts of RAC system Perform copper tube cutting flaring swaging brazing Test mechanical electrical components Perform leak test vacuuming gas charging wiring installation of refrigerator Perform door alignment door gasket fitting replace door switch Test compressor motor terminal start compressor Direct with relay without relay technique of flushing leak testing replacing capillary filter drier evacuation gas charging Check components of frost free refrigerator electrical mechanical wiring of frost free freeze air distribution in refrigerator sector Leak detection evacuators gas charging Dismantle repair and assemble hermetic fixed and variable speed compressor and test performance Identify the terminals of sealed compressor and their wiring and measure current volts watts and use of DOL starter with different types of motors Perform selection of Hermetic compressor for different appliances starting methods testing controls safety cut out used in sealed compressor Identify the components of control system of Inverter A C and wiring of control system Perform servicing de scaling of condenser internals externals used in different appliances Perform fitting adjustment of drier filter refrigerant controls used in different refrigeration system Perform servicing of different evaporator used in different appliances Carry out Recovery and Recycling of Refrigerant used alternative of CFC HFC re cover transfer handling of gas cylinders Retrofit CFC HFC machine with ozone friendly refrigerant with understanding of the compatibility Pack thermal insulation and prevent cooling leakage Install window AC test Electrical electronics components Fault diagnosis remedial measures Perform servicing of electrical electronic control test installation wiring fault finding remedial measures of different split AC Perform servicing of car AC Fault diagnosis remedial measures **Information & Communication Technology System Maintenance First Year ICTSM** Manoj Dole, Maintenance First Year ICTSM is a simple e Book for ITI Engineering Course Information Communication Technology System Maintenance ICTSM It contains objective questions with underlined bold correct answers MCQ covering all topics including all about the latest Important about safety and environment use of fire extinguishers Resistors and Soldering De soldering

practice Inductors measure Inductance and uses of Transformer Capacitor types of Transistors and use it as Amplifiers voltage frequency modulation of modulator transmitter Working with some important Mechanical Electrical Electronics Accessories used in information communication system Word Processing and Spreadsheet Software hardware components of Desktop Computer Operating System and all other application software hardware components of Laptop PC Replace install SMPS and troubleshoot memory devices chips Modem System Resources Add on Cards Cables Connectors Tablet Smart Devices Networking System using various network devices configuration of Windows Server Installation configuration of DNS Routing and user account customization Configuration of Server and managing Server Network security and Infrastructure Installation and basic configuration of Linux server and lots more
